And, for the first time with apps, in org apps...

Optionally grant share permissions to users.

The image shows a screenshot of the Microsoft Fabric interface. On the left, a dark sidebar contains an 'Edit app' button and a 'Share' dropdown menu. The 'Share' menu is open, showing options: 'Copy link to this app', 'Link to this app page', 'Manage access', and 'Add person or group'. The 'Add person or group' option is highlighted. In the center, a 'Grant people access' dialog is open for the 'Contoso store employees app'. It shows that read permissions are being granted to 'Andy Nimeth'. Under 'Additional permissions', the 'Share' checkbox is checked. Under 'Notification Options', the 'Notify recipients by email' checkbox is also checked. A preview of the email notification is shown below, stating: 'Hey Andy, here's the employees app for your store. You have permissions to share the app with others.' At the bottom of the dialog are 'Grant' and 'Back' buttons. On the right, a green notification banner reads 'Successfully granted permissions' with 'Microsoft Fabric' below it.

And, for the first time with apps, in org apps...

Optionally grant share permissions to users. ✨

The image shows a composite of three UI elements from Microsoft Fabric:

- Share Menu:** A dark-themed menu with options: 'Edit app', 'Share' (selected), 'Copy link to this app', 'Link to this app page', 'Manage access', and 'Add person or group' (highlighted with a blue border).
- Grant people access Dialog:** A light-themed dialog titled 'Grant people access' for the 'Contoso store employees app'. It shows 'You are granting read permissions to this org app to the following recipients.' with a list containing 'Andy Nimeth'. Under 'Additional permissions', 'Share' is checked. Under 'Notification Options', 'Notify recipients by email' is checked. A preview message reads: 'Hey Andy, here's the employees app for your store. You have permissions to share the app with others.' A note at the bottom states: 'People will be given read permissions to the underlying semantic models for each item in this app.' Buttons for 'Grant' and 'Back' are at the bottom.
- Success Toast:** A green toast message that says 'Successfully granted permissions' for 'Microsoft Fabric'.

And, for the first time with apps, in org apps...

Optionally grant share permissions to users.

Grant people access
Contoso store employees app

You are granting read permissions to this org app to the following recipients.

Andy Nimeth

Additional permissions

☒ Share

Notification Options

☒ Notify recipients by email

Hey Andy, here's the employees app for your store. You have permissions to share the app with others.

People will be given read permissions to the underlying semantic models for each item in this app.

Successfully granted permissions
Microsoft Fabric

Grant **Back**

And, for the first time with apps, in org apps...

Optionally grant share permissions to users. ✨

The image shows a sequence of steps in the Microsoft Fabric interface for granting access to an app. On the left, a 'Share' button is highlighted in a dark bar, with a dropdown menu showing options: 'Copy link to this app', 'Link to this app page', 'Manage access', and 'Add person or group'. The main part of the image is a 'Grant people access' dialog for the 'Contoso store employees app'. It shows that 'read permissions' are being granted to 'Andy Nimeth'. A blue box highlights the 'Additional permissions' section where the 'Share' checkbox is checked. Below this, the 'Notification Options' section shows 'Notify recipients by email' is also checked. A preview of the email notification is shown, stating: 'Hey Andy, here's the employees app for your store. You have permissions to share the app with others.' At the bottom of the dialog are 'Grant' and 'Back' buttons. To the right, a green toast notification says 'Successfully granted permissions' for 'Microsoft Fabric'. The bottom of the image features the 'FABCON SQLCON' logo, a partial view of a person's head, and the text '26 JOIN THE CONVERSATION #FABCONSQLCON26'.

26 JOIN THE CONVERSATION #FABCONSQLCON26

And, for the first time with apps, in org apps...

Optionally grant share permissions to users.

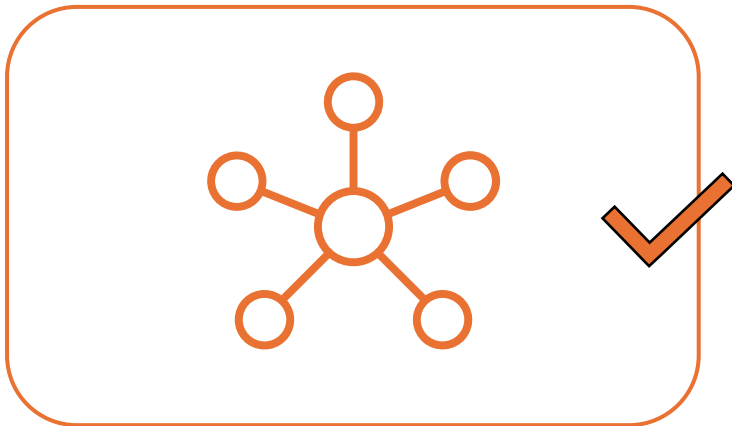

The image shows a composite of three UI elements from the Microsoft Fabric interface:

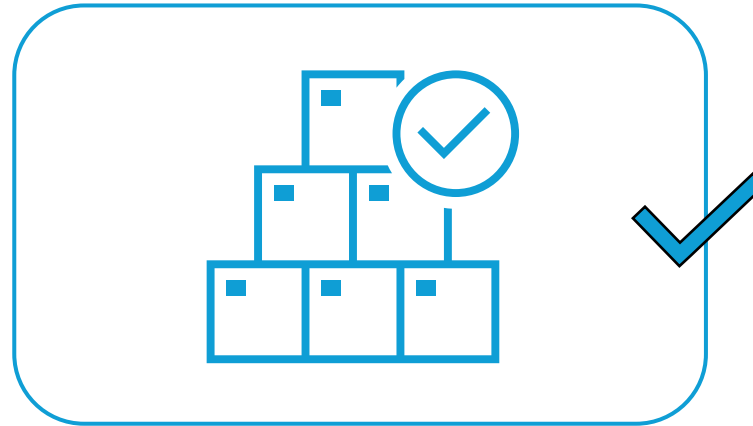

- Left Panel:** A dark sidebar with an 'Edit app' button and a 'Share' dropdown menu. The dropdown is open, showing options: 'Copy link to this app', 'Link to this app page', 'Manage access', and 'Add person or group'.
- Center Dialog:** A 'Grant people access' window for the 'Contoso store employees app'. It states: 'You are granting read permissions to this org app to the following recipients.' Below this, 'Andy Nimeth' is listed as a recipient. Under 'Additional permissions', the 'Share' checkbox is checked. Under 'Notification Options', 'Notify recipients by email' is checked. A preview of the email notification is shown: 'Hey Andy, here's the employees app for your store. You have permissions to share the app with others.' At the bottom, a note states: 'People will be given read permissions to the underlying semantic models for each item in this app.' 'Grant' and 'Back' buttons are at the bottom right.
- Right Notification:** A blue-bordered toast notification titled 'Successfully granted permissions' from 'Microsoft Fabric', indicating the action was completed.

Customizing org apps

The screenshot displays the 'Contoso Industries Leadership App' interface. The top navigation bar includes the app name, a user profile 'Confidential/Microsoft Extended', a search bar, and utility icons. The left sidebar contains navigation links: Home, Create, Browse, Apps, Deployment pipelines, Workspaces, and a list of app components. The main content area features a 'Welcome to the Leadership App for Contoso Industries' banner, a search filter 'Filter by keyword', and a list of app components categorized by function.

The screenshot shows the Microsoft Power BI interface for the 'Contoso Industries (dev)' workspace. The top navigation bar includes the Microsoft logo, 'Power BI', and 'Contoso Industries (dev)'. A search bar is present. The main area displays a task flow diagram with the following steps: 'Store' (21 items), 'Prepare' (3 items), 'Visualize' (17 items), 'Track' (2 items), and 'Distribute' (5 items). A right-hand panel shows 'General' task flow details. Below the diagram, a table lists apps: 'Contoso Industries Leadership App', 'Contoso Travel and Retail App', 'Cross-Team Efficiency Project App', and 'Health and Services App'. A context menu is open over the 'Contoso Industries Leadership App' row, showing options: 'View item lineage', 'View details', 'Move to', 'Share', 'Manage permissions', and 'Edit'. The 'Edit' option is highlighted.

Response to audiences in apps...

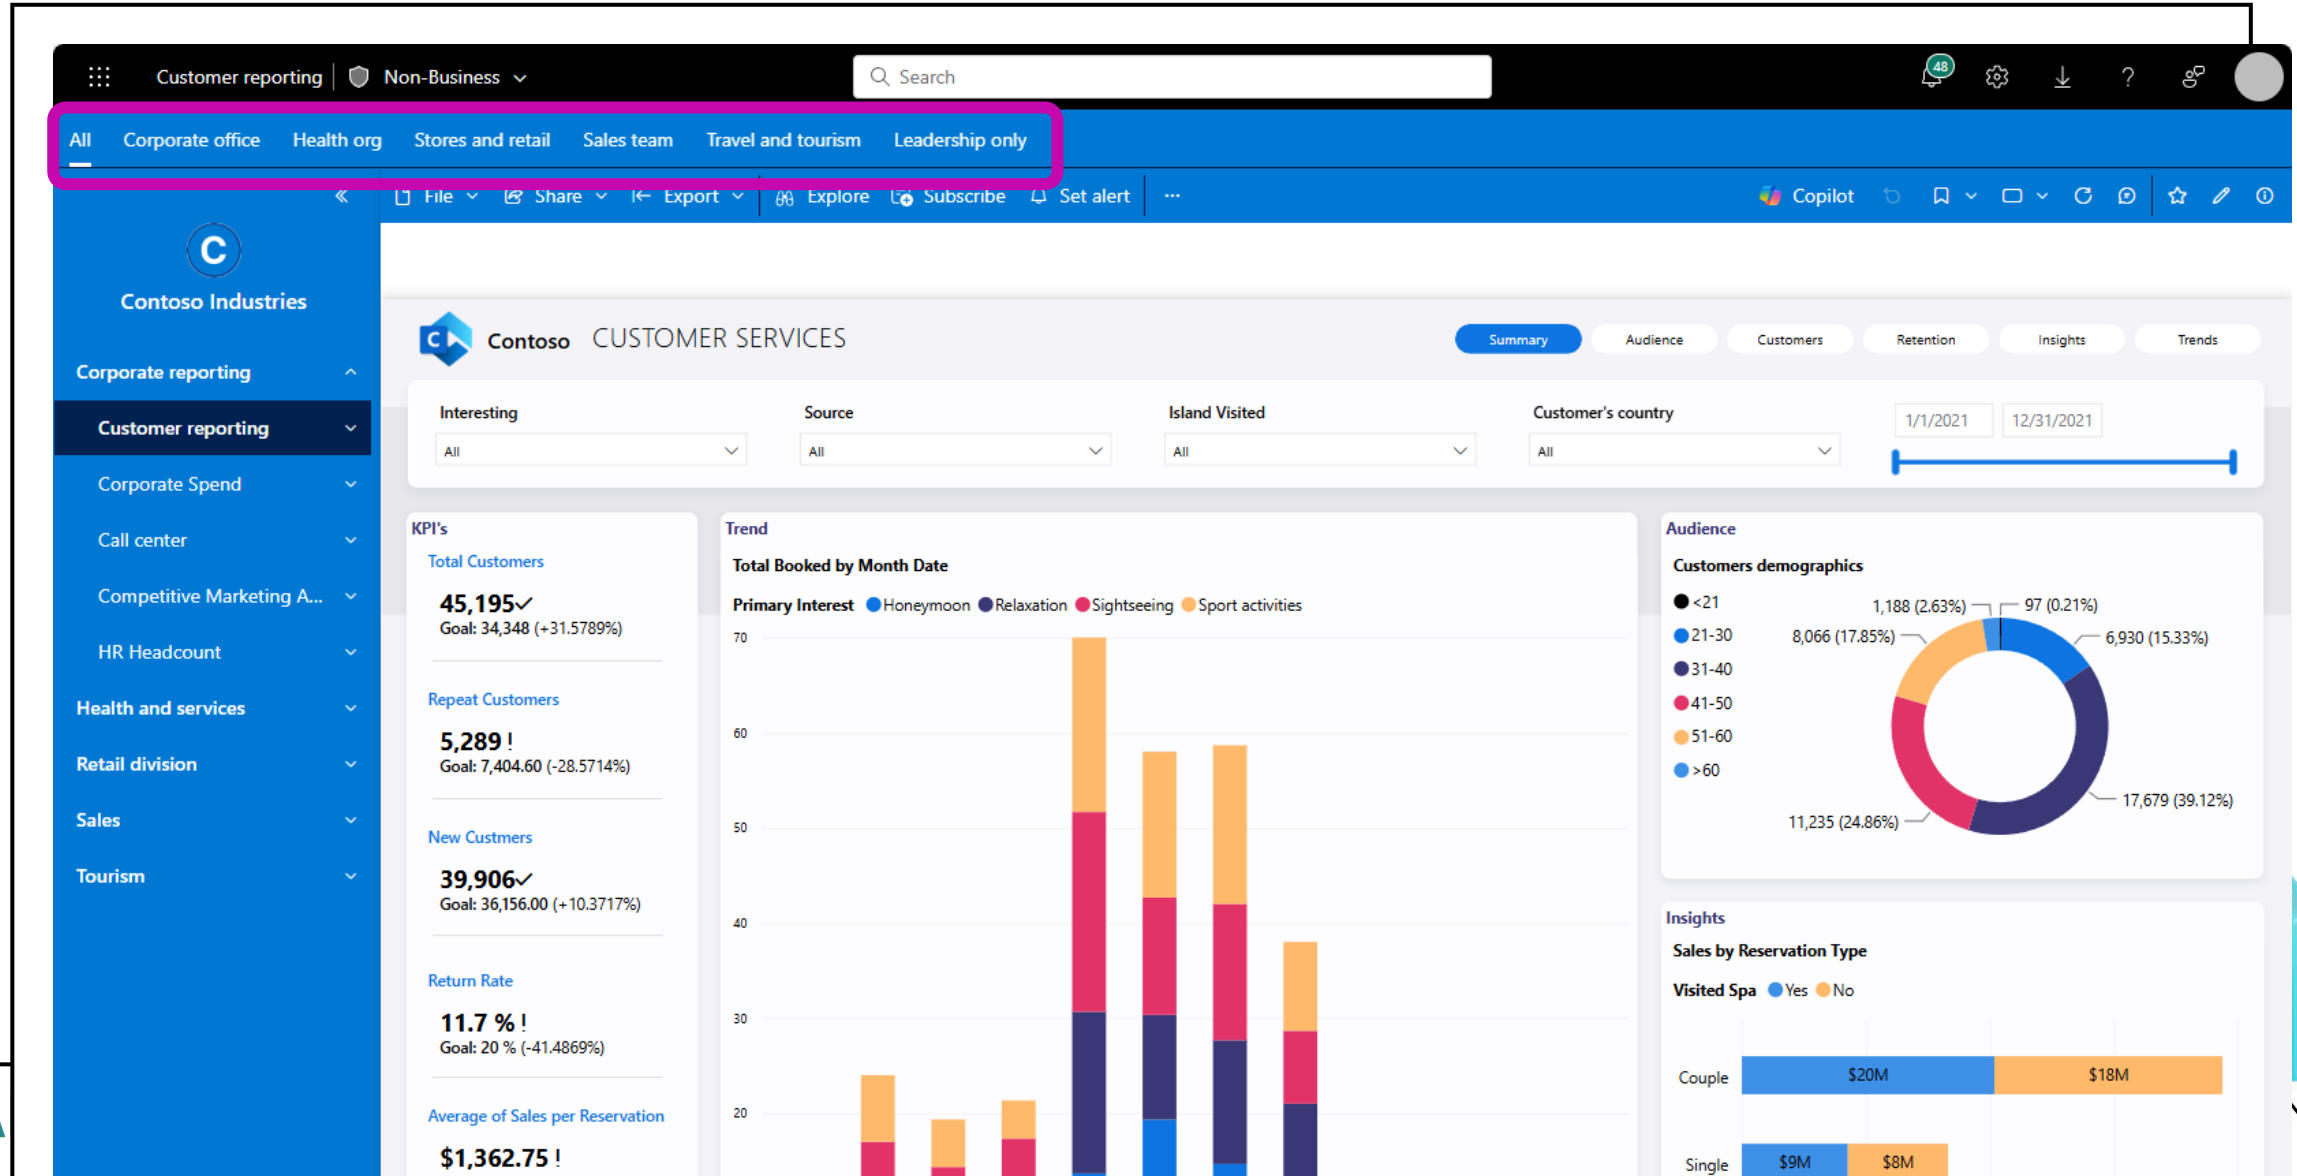

Brief refresher on audiences in workspace apps...

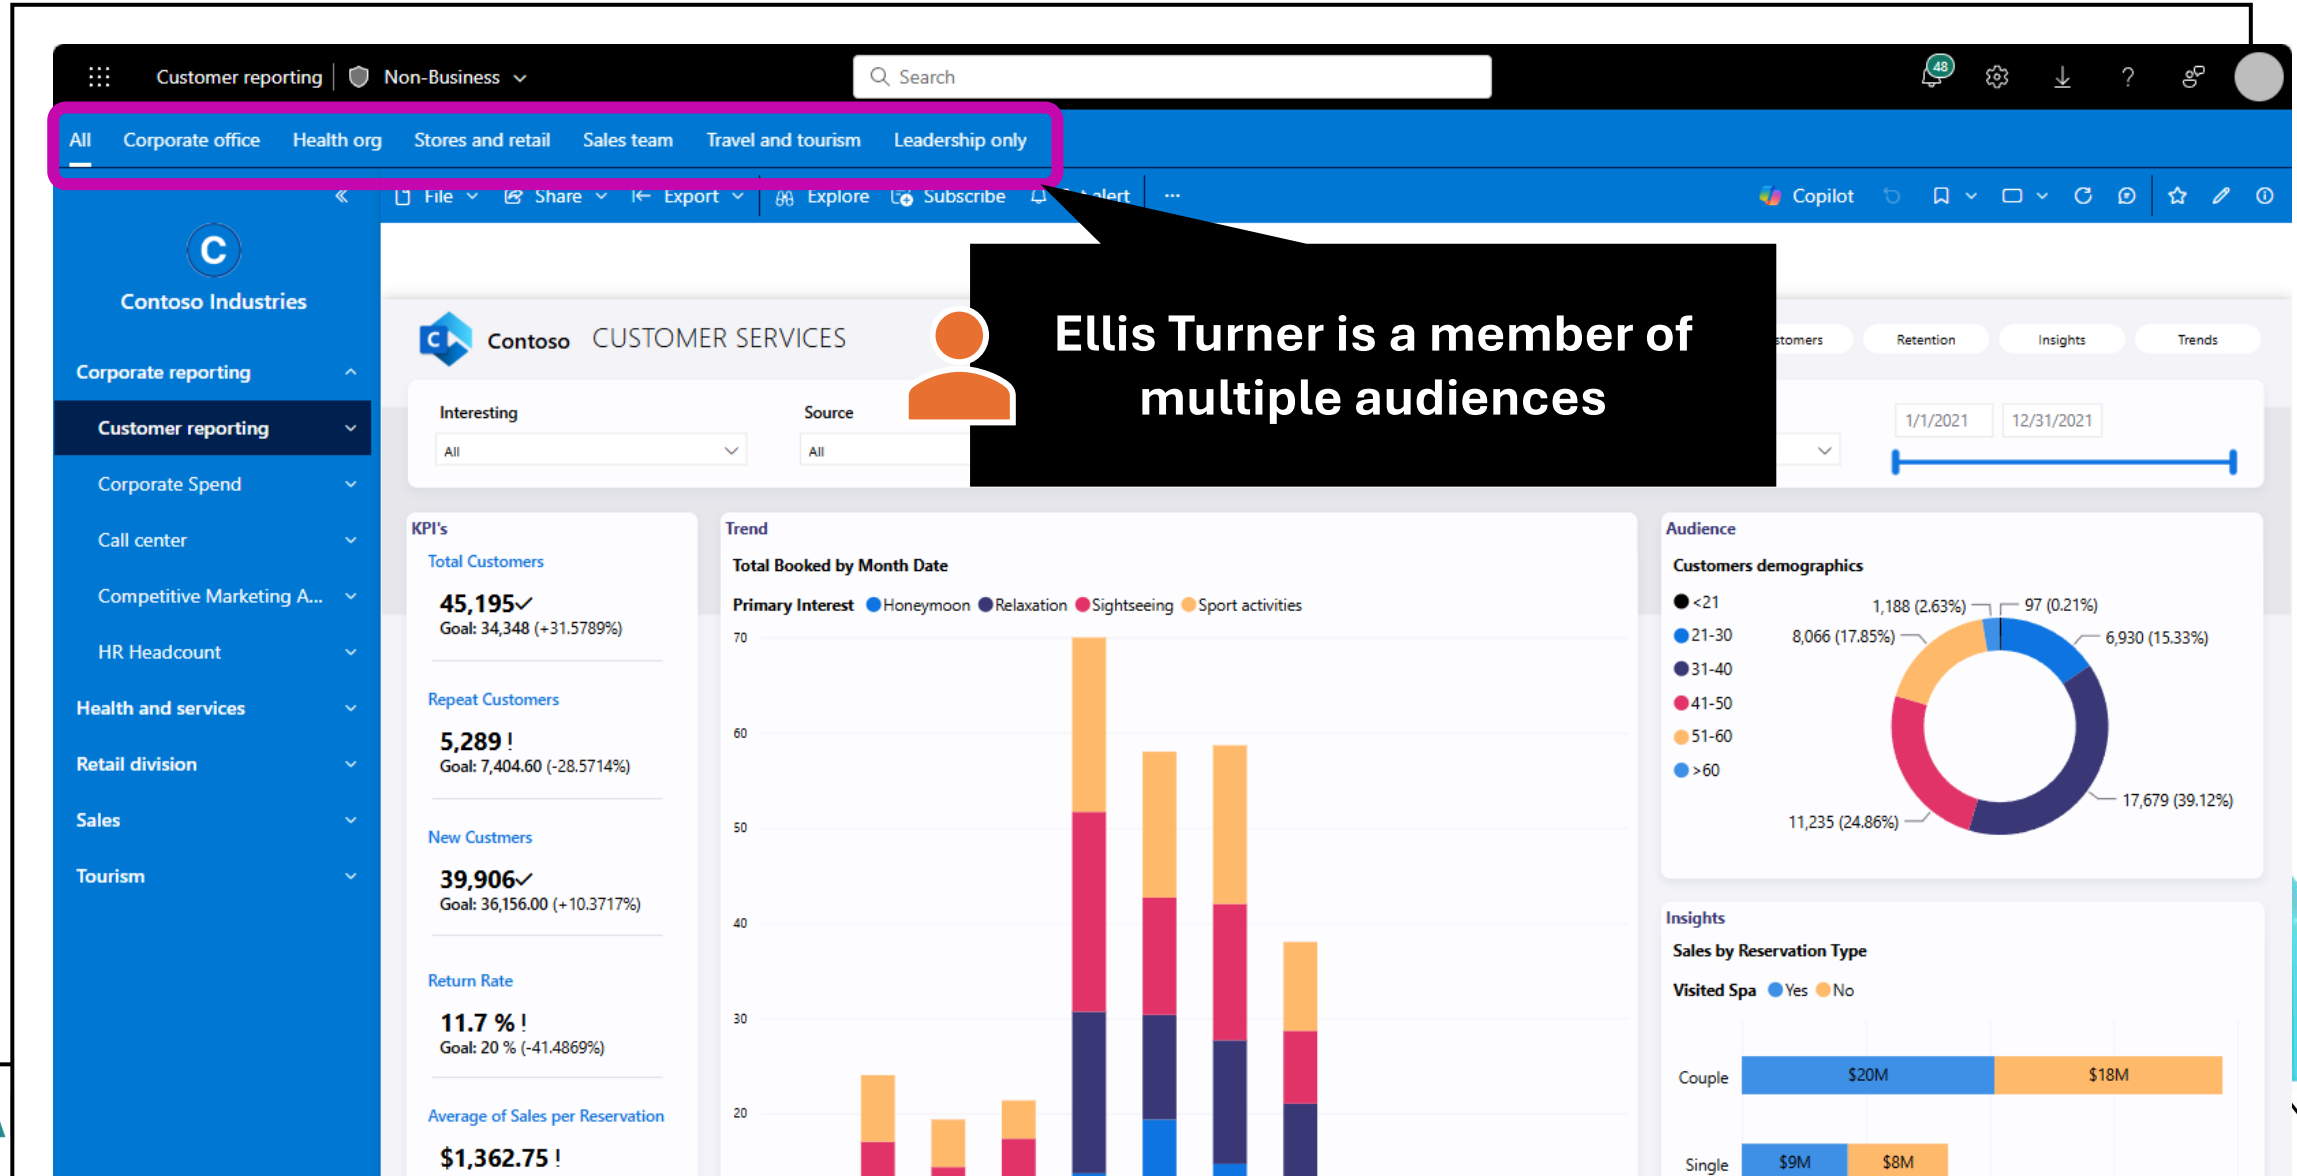

The screenshot displays the Microsoft Power BI workspace interface for 'Contoso Industries (dev)'. The top navigation bar includes the Microsoft logo, 'Power BI', and the workspace name. A search bar is present. The left sidebar shows navigation options like Home, Create, Browse, App, Deployment pipelines, and Workspaces. The main area shows a task flow diagram with five tasks: Store (13 items), Prepare (2 items), Visualize (15 items), Track (10 items), and Distribute (1 item). The 'Update app' button is highlighted with a green box. The right sidebar shows 'General' information and a list of 5 tasks. The bottom table lists workspace folders: Archived org apps, Draft space, and Models.

Name	Type	Task	Owner	Refreshed	Next refresh	Endorsemen	Sensitivity	Included in app
Archived org apps	Folder	—	—	—	—	—	—	—
Draft space	Folder	—	—	—	—	—	—	—
Models	Folder	—	—	—	—	—	—	—

Brief refresher on audiences in workspace apps...

Brief refresher on audiences in workspace apps...

Brief refresher on audiences in workspace apps...

Brief refresher on audiences in workspace apps...

The screenshot shows a Microsoft Power BI workspace named 'Contoso Industries'. The top navigation bar includes 'Medical Visits' and 'General'. The left sidebar is expanded, showing 'Health and services' with sub-items 'Medical Visits' and 'Summary'. The main content area displays a dashboard for 'Contoso HEALTH CARE' with the following key metrics:

- Total Patients: 18,230
- Our Beds: 45 (Hospital Beds: 123)
- Patient Satisfaction: 5.0 (Goal: 6.0)
- Revenue: € 500,202,616

Below the metrics, there are filters for 'Department' (All) and 'Case Type' (All), along with a date range from 1/1/2018 to 1/31/2019. The main table displays data for various departments:

Department	Total Patients	Revenue	Satisfaction Rate	Beds Available
Cardiology	1,662	€ 45,318,474	4.3	7
Accident	1,506	€ 42,651,847	3.3	3
Gastroenterology	1,389	€ 40,019,172	3.2	2
Dermatology	1,425	€ 38,779,550	5.6	-2
Physiotherapy	1,241	€ 35,263,637	6.7	-2
Urology	1,167	€ 31,643,597	4.3	2
Gynecology	1,120	€ 29,992,144	6.6	0
OPD	1,041	€ 27,748,993	4.4	-2
Oncology	1,013	€ 27,380,130	5.6	-1
Radiology	1,004	€ 27,007,129	5.7	0
Radiotherapy	947	€ 25,439,488	4.4	1
Ophthalmology	831	€ 21,898,271	5.6	4
Neurology	729	€ 19,792,308	4.4	6

On the right side of the dashboard, there is a section titled 'Ask a question about your data' with a list of suggested queries: 'top facilities by beds LV', 'top occupancy cal by revenue', 'top occupancy cal by beds LV', 'top occupancy cal by revenue LV', and 'top facilities by beds available'.

Brief refresher on audiences in workspace apps...

The screenshot shows a workspace app interface. At the top, a navigation bar includes 'Medical Visits' and 'General' tabs, a search bar, and various utility icons. Below this, a blue sidebar on the left lists navigation options: 'Contoso Industries', 'Health and services', 'Medical Visits', 'Summary', 'Patients Overview', 'Capacity Insights', 'Patient Experience', and 'Efficiency & Cost'. A pink box highlights the 'Health org' tab in the top navigation bar. A black callout box with a person icon points to the 'Health org' tab, containing the text: 'Anne Patel is a member of Health audience only'. The main content area displays a 'Patient Satisfaction' dashboard with a 5.0 rating (Goal: 6.0) and a revenue figure of € 500,202,616. Below this, there are filters for 'Department' (All) and 'Case Type' (All), along with date range selectors for 1/1/2018 and 1/31/2019. A data table follows, showing metrics for various departments. To the right of the table, there is a section titled 'Ask a question about your data' with several suggested queries.

Department	Total Patients	Revenue	Satisfaction Rate	Beds Available
Cardiology	1,662	€ 45,318,474	4.3	7
Accident	1,506	€ 42,651,847	3.3	3
Gastroenterology	1,389	€ 40,019,172	3.2	2
Dermatology	1,425	€ 38,779,550	5.6	-2
Physiotherapy	1,241	€ 35,263,637	6.7	-2
Urology	1,167	€ 31,643,597	4.3	2
Gynecology	1,120	€ 29,992,144	6.6	0
OPD	1,041	€ 27,748,993	4.4	-2
Oncology	1,013	€ 27,380,130	5.6	-1
Radiology	1,004	€ 27,007,129	5.7	0
Radiotherapy	947	€ 25,439,488	4.4	1
Ophthalmology	831	€ 21,898,271	5.6	4
Neurology	729	€ 19,792,308	4.4	6
Pathology	686	€ 18,744,788	4.4	1

Ask a question about your data:

Try one of these to get started:

- top facilities by beds LV
- top occupancy cal by revenue
- top occupancy cal by beds LV
- top occupancy cal by revenue LV
- top facilities by beds available

Brief refresher on audiences in workspace apps...

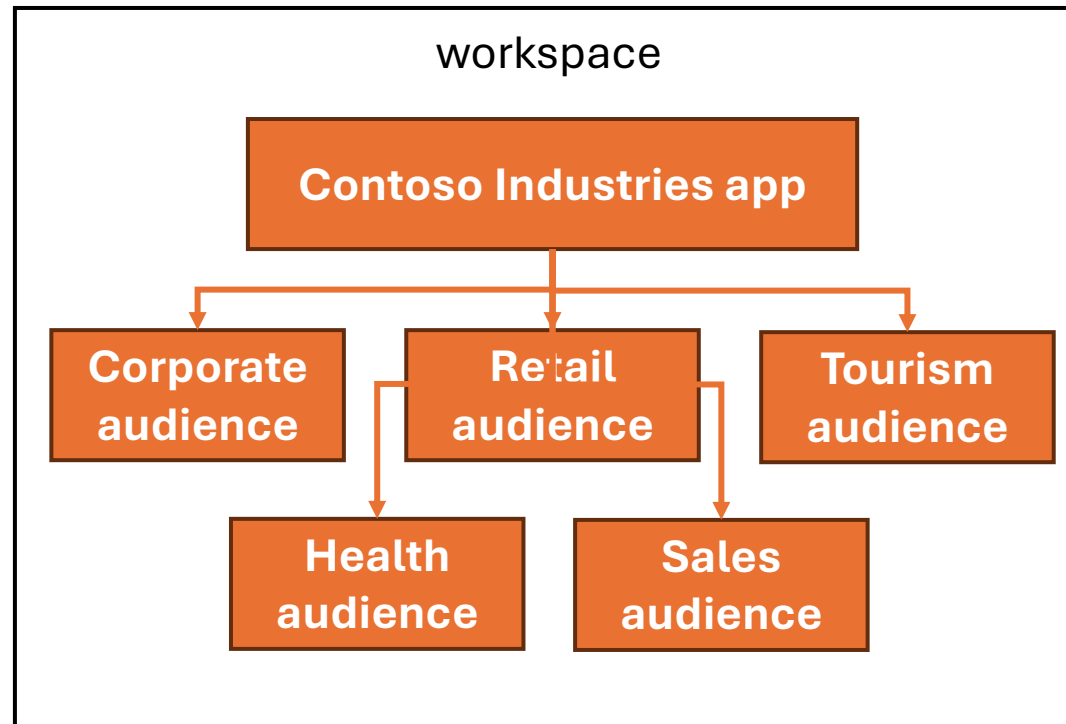

The screenshot displays a workspace app for 'Contoso Industries' with a 'Health and services' audience. The left navigation pane is highlighted with a pink box, showing options like 'Health and services', 'Medical Visits', 'Summary', 'Patients Overview', 'Capacity Insights', 'Patient Experience', and 'Efficiency & Cost'. The main dashboard features four KPI cards: 'Total Patients' (18,230), 'Our Beds' (45 Hospital Beds / 123), 'Patient Satisfaction' (5.0 / Goal 6.0), and 'Revenue' (€ 500,202,616). Below these are filters for 'Department' (All) and 'Case Type' (All), along with a date range selector (1/1/2018 to 1/31/2019). A table lists departmental data with columns for Department, Total Patients, Revenue, Satisfaction Rate, and Beds Available. A callout box points to the 'Health and services' menu item, stating 'Anne Patel is a member of Health audience only'.

Department	Total Patients	Revenue	Satisfaction Rate	Beds Available	
Cardiology	1,642	€ 45,538,474	4.3	7	
	1,506	€ 42,651,647	3.3	3	
		€ 40,018,172	3.2	2	
		€ 38,279,550	5.6	-2	
		€ 35,263,637	6.7	-2	
		€ 31,643,597	4.3	2	
		€ 29,992,144	6.6	0	
		€ 27,749,993	4.4	-2	
		€ 27,380,130	5.6	-1	
Radiology		1,004	€ 27,007,129	5.7	0
Radiotherapy		947	€ 25,439,488	4.4	1
Ophthalmology		831	€ 21,898,271	5.6	4
Neurology		729	€ 19,792,308	4.4	6
Orthopaedics		625	€ 17,713,728	6.6	3

What else have we heard?

Response to audiences in apps:

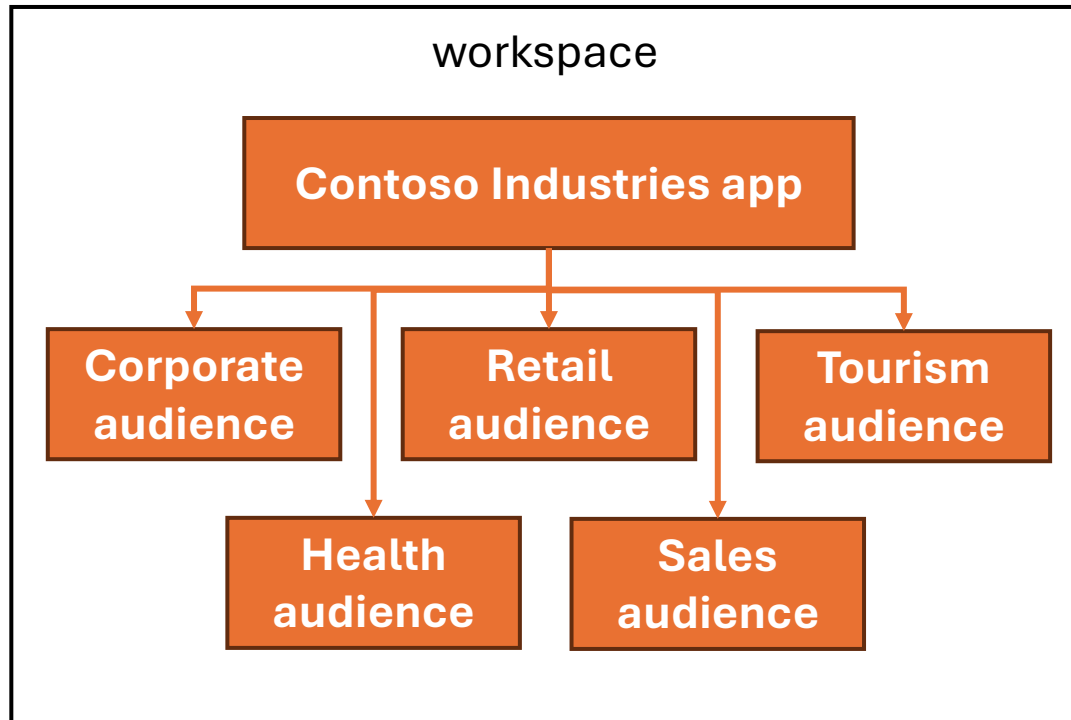

Audiences are great, but audiences aren't the same as multiple apps per workspace.

What else have we heard?

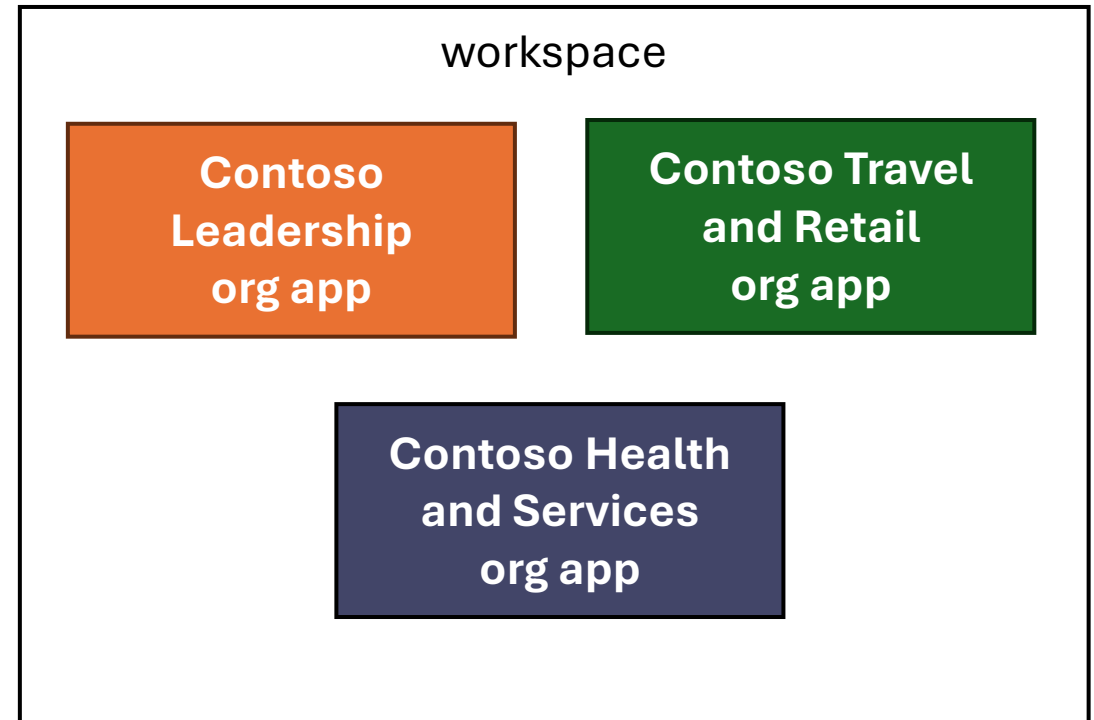

Response to audiences in apps:

Audiences are great, but audiences aren't the same as multiple apps per workspace.

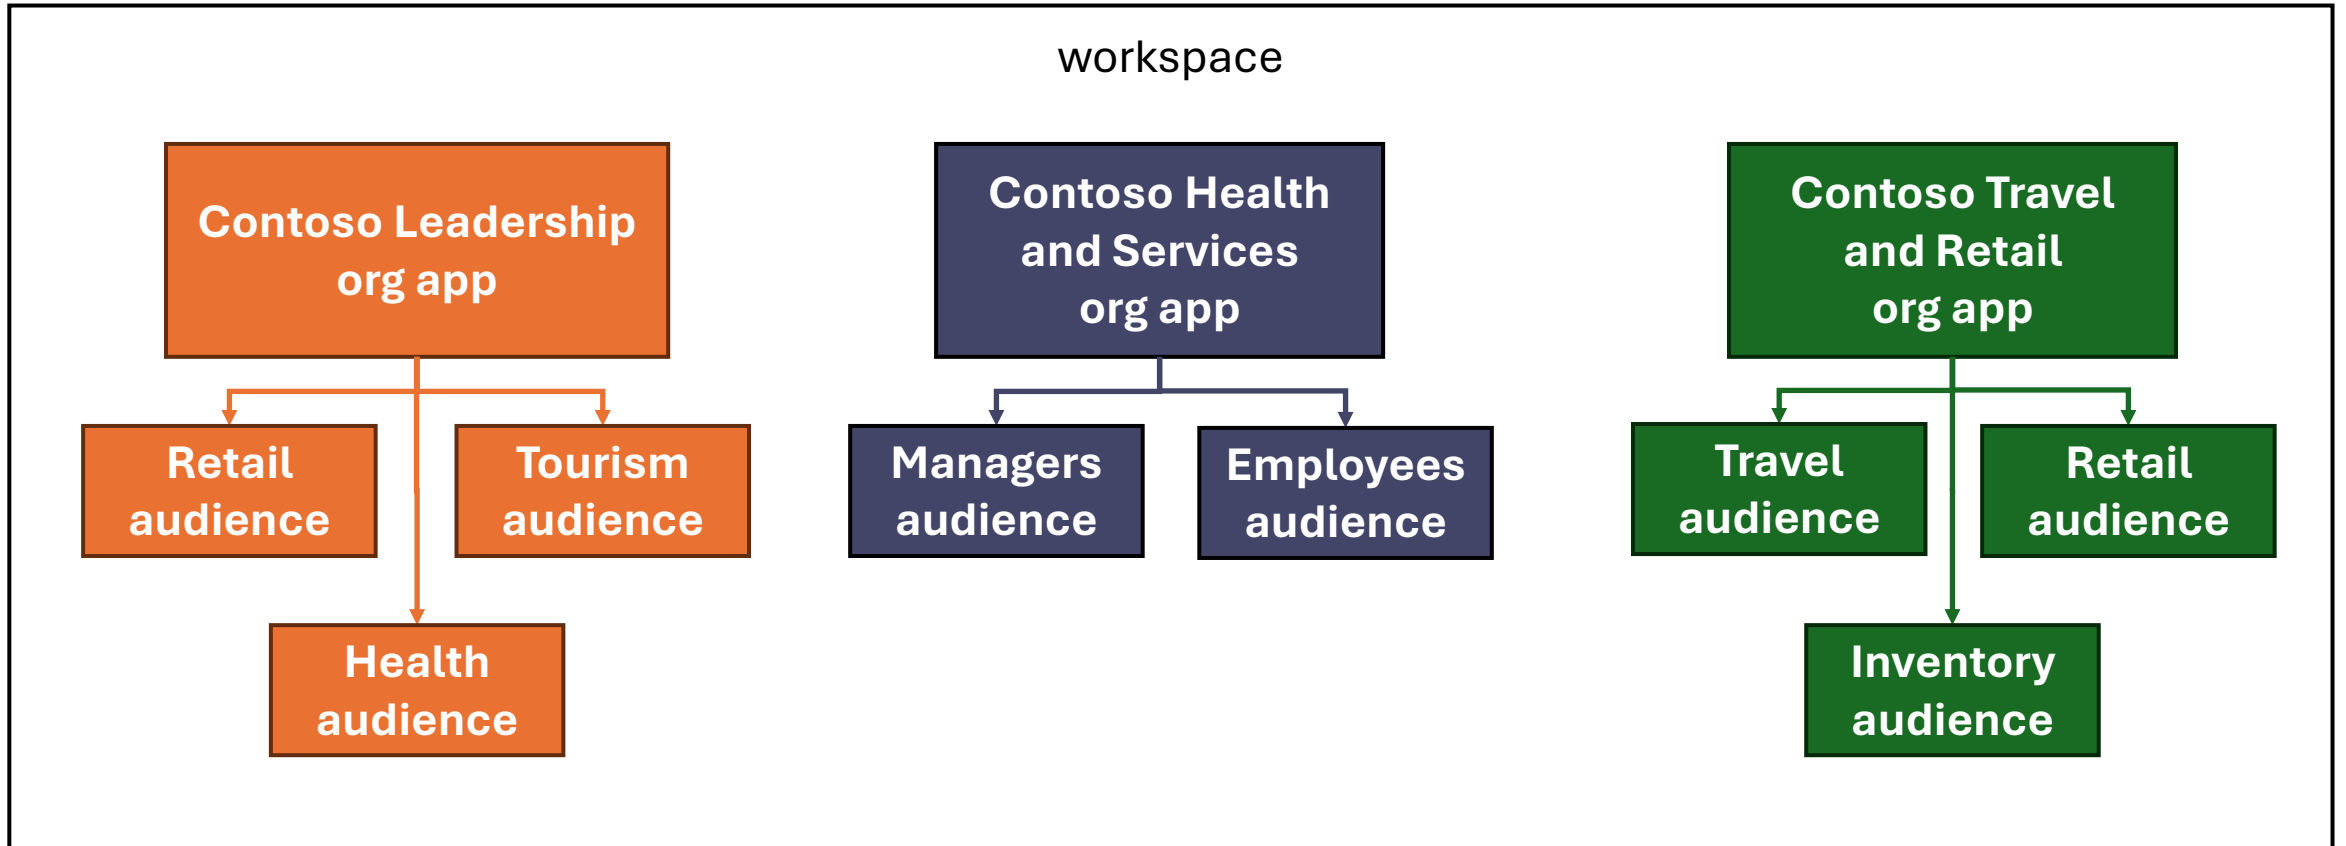

Response to org apps:

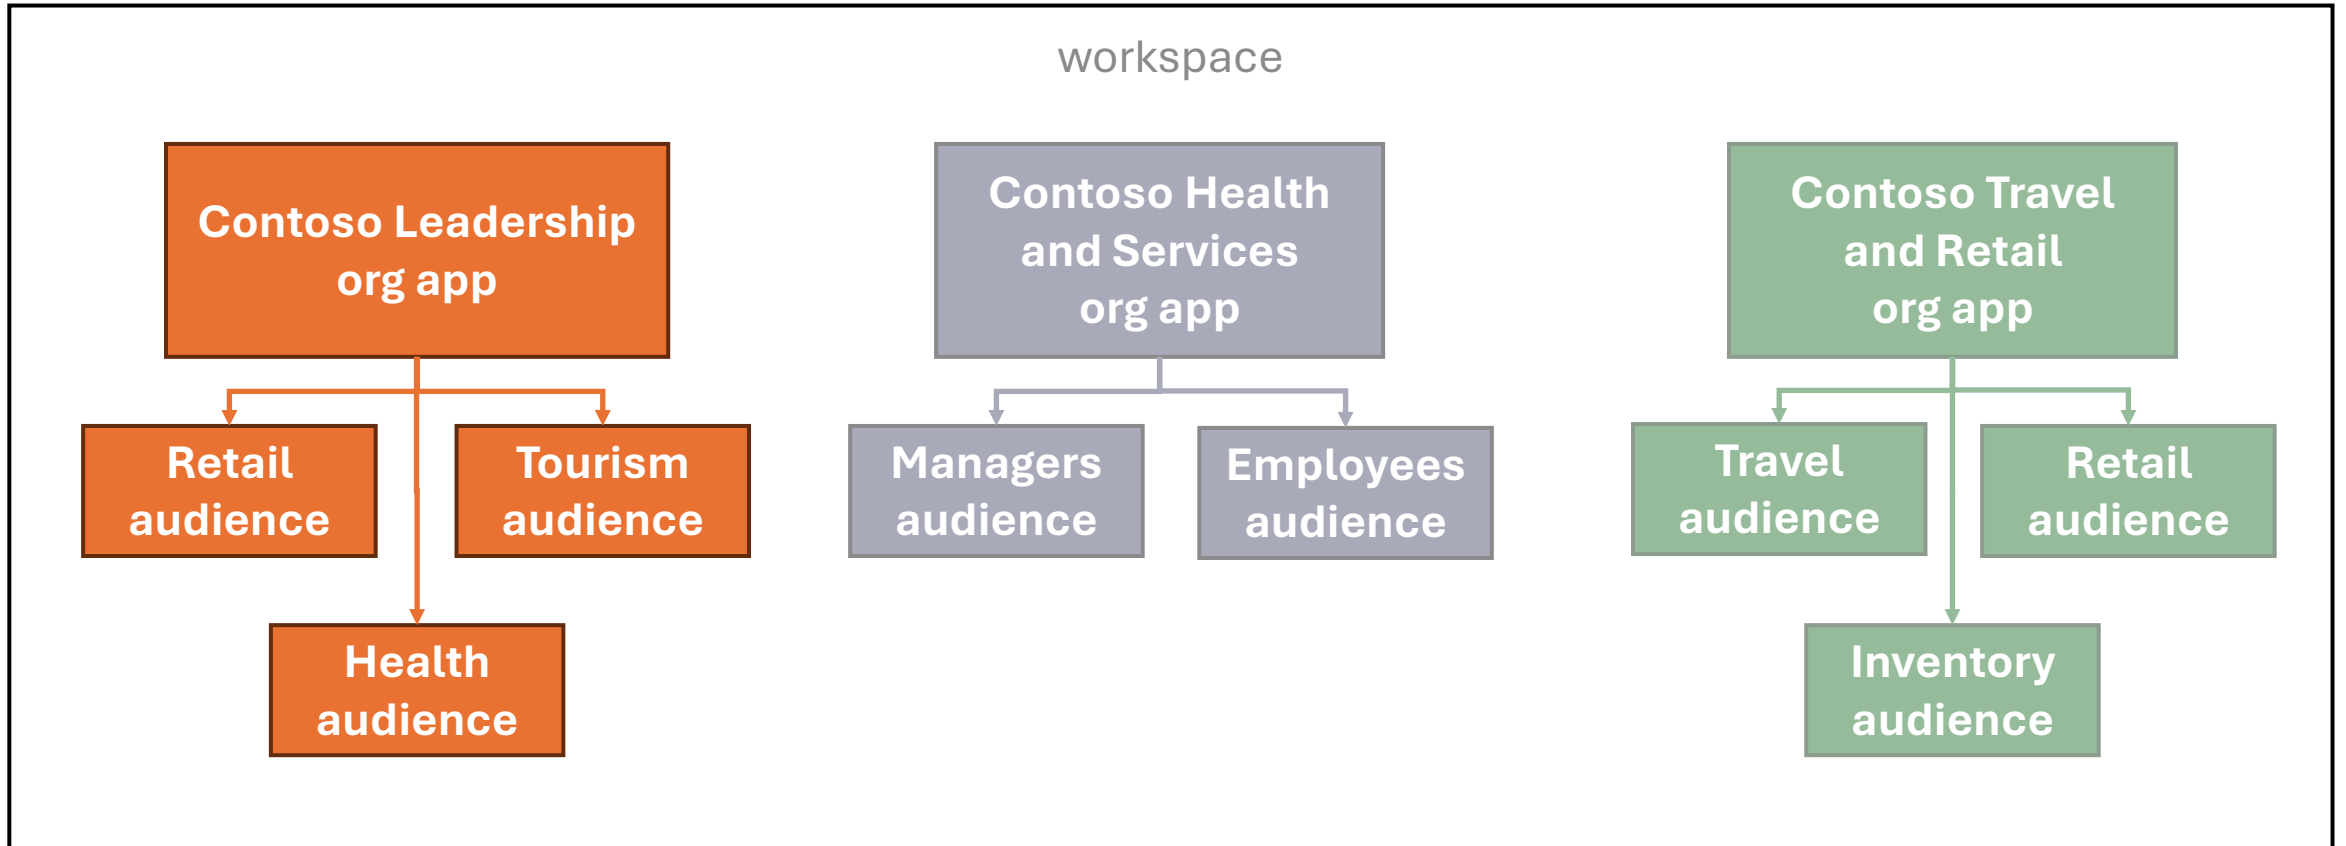

Multiple apps are great, but multiple apps per workspace aren't the same as audiences.

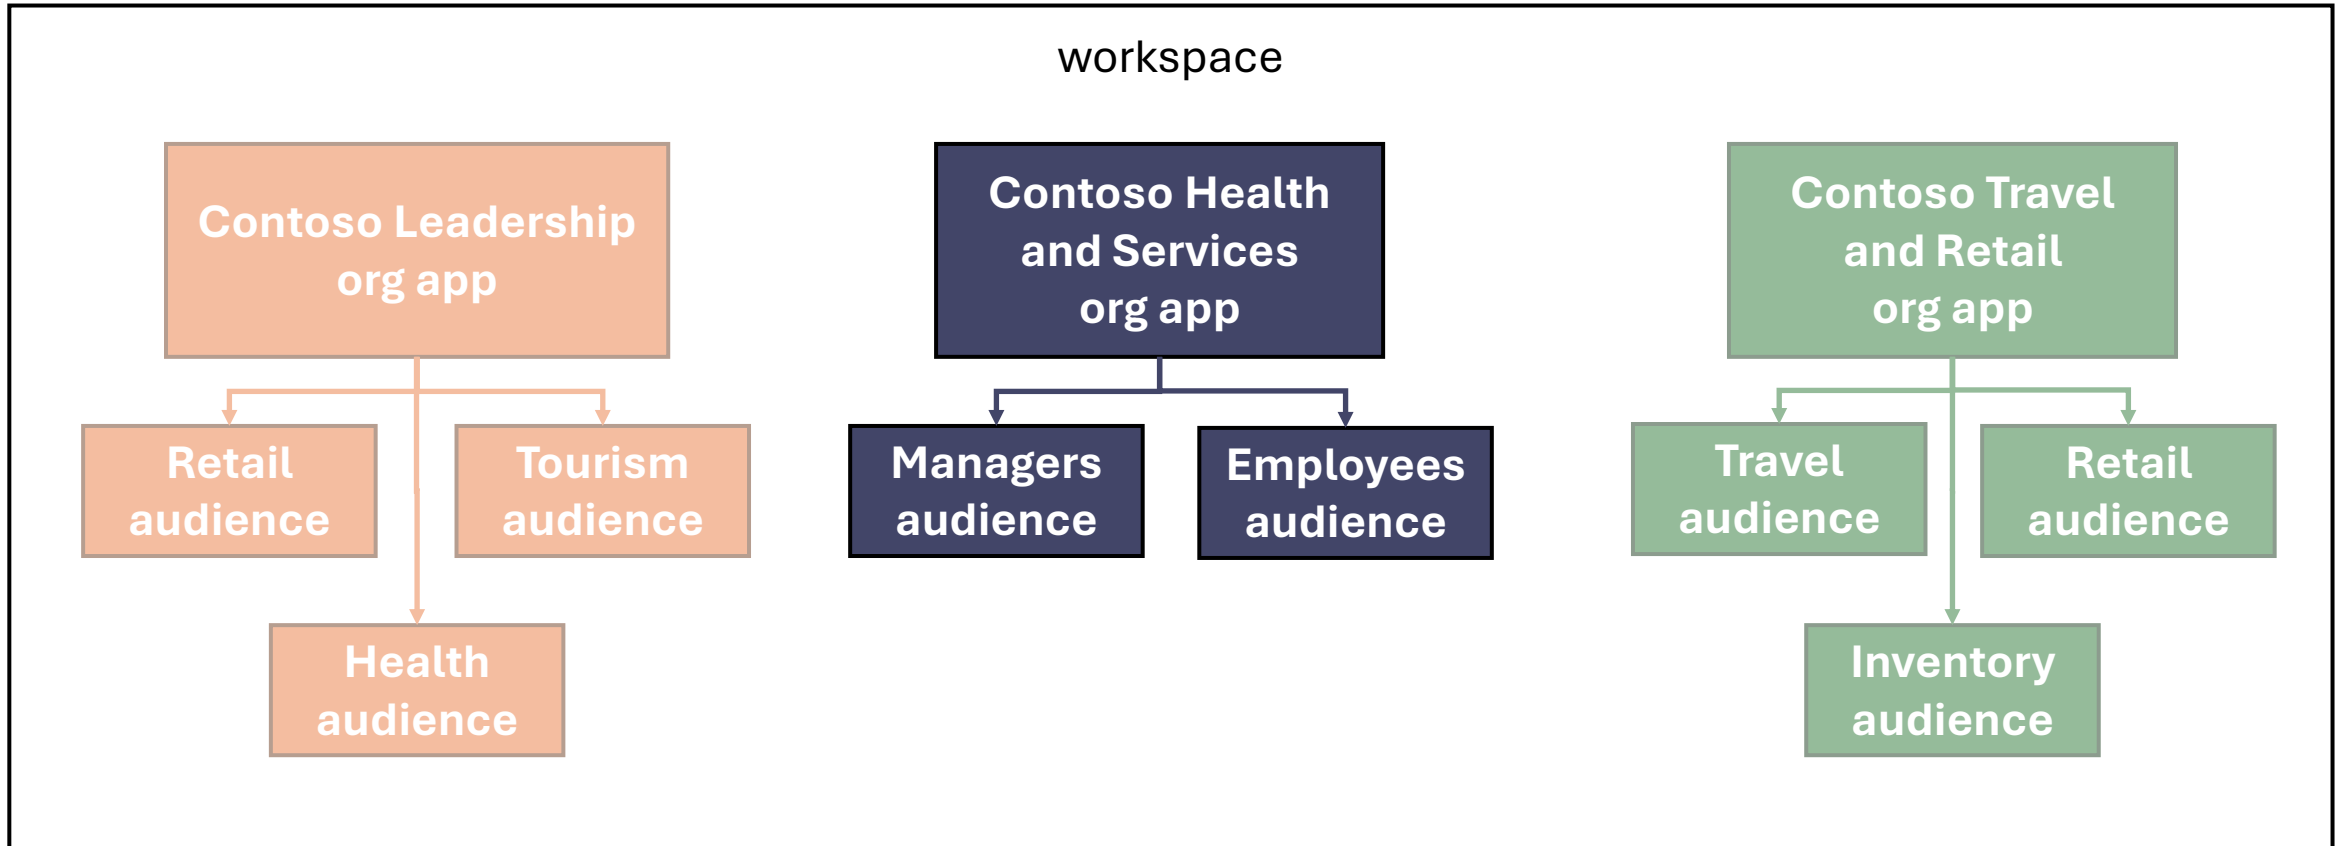

I'd like the best of both.

I'd like the best of both.

I'd like the best of both.

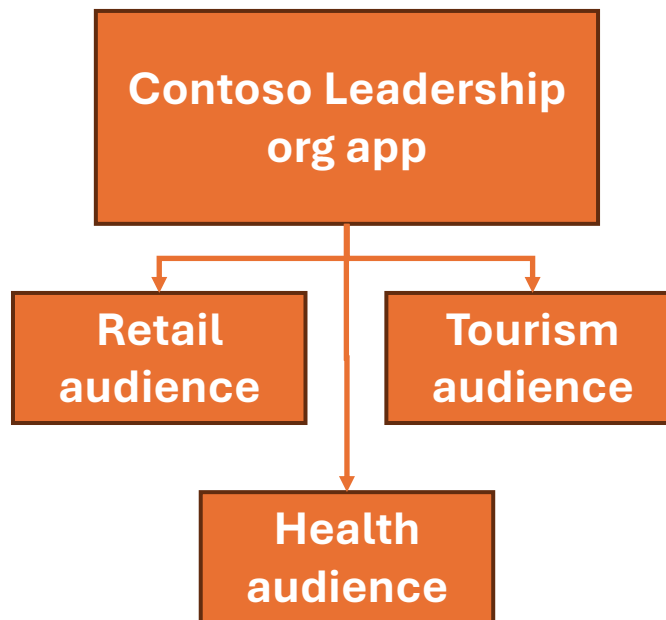

I'd like the best of both.

I'd like the best of both.

workspace

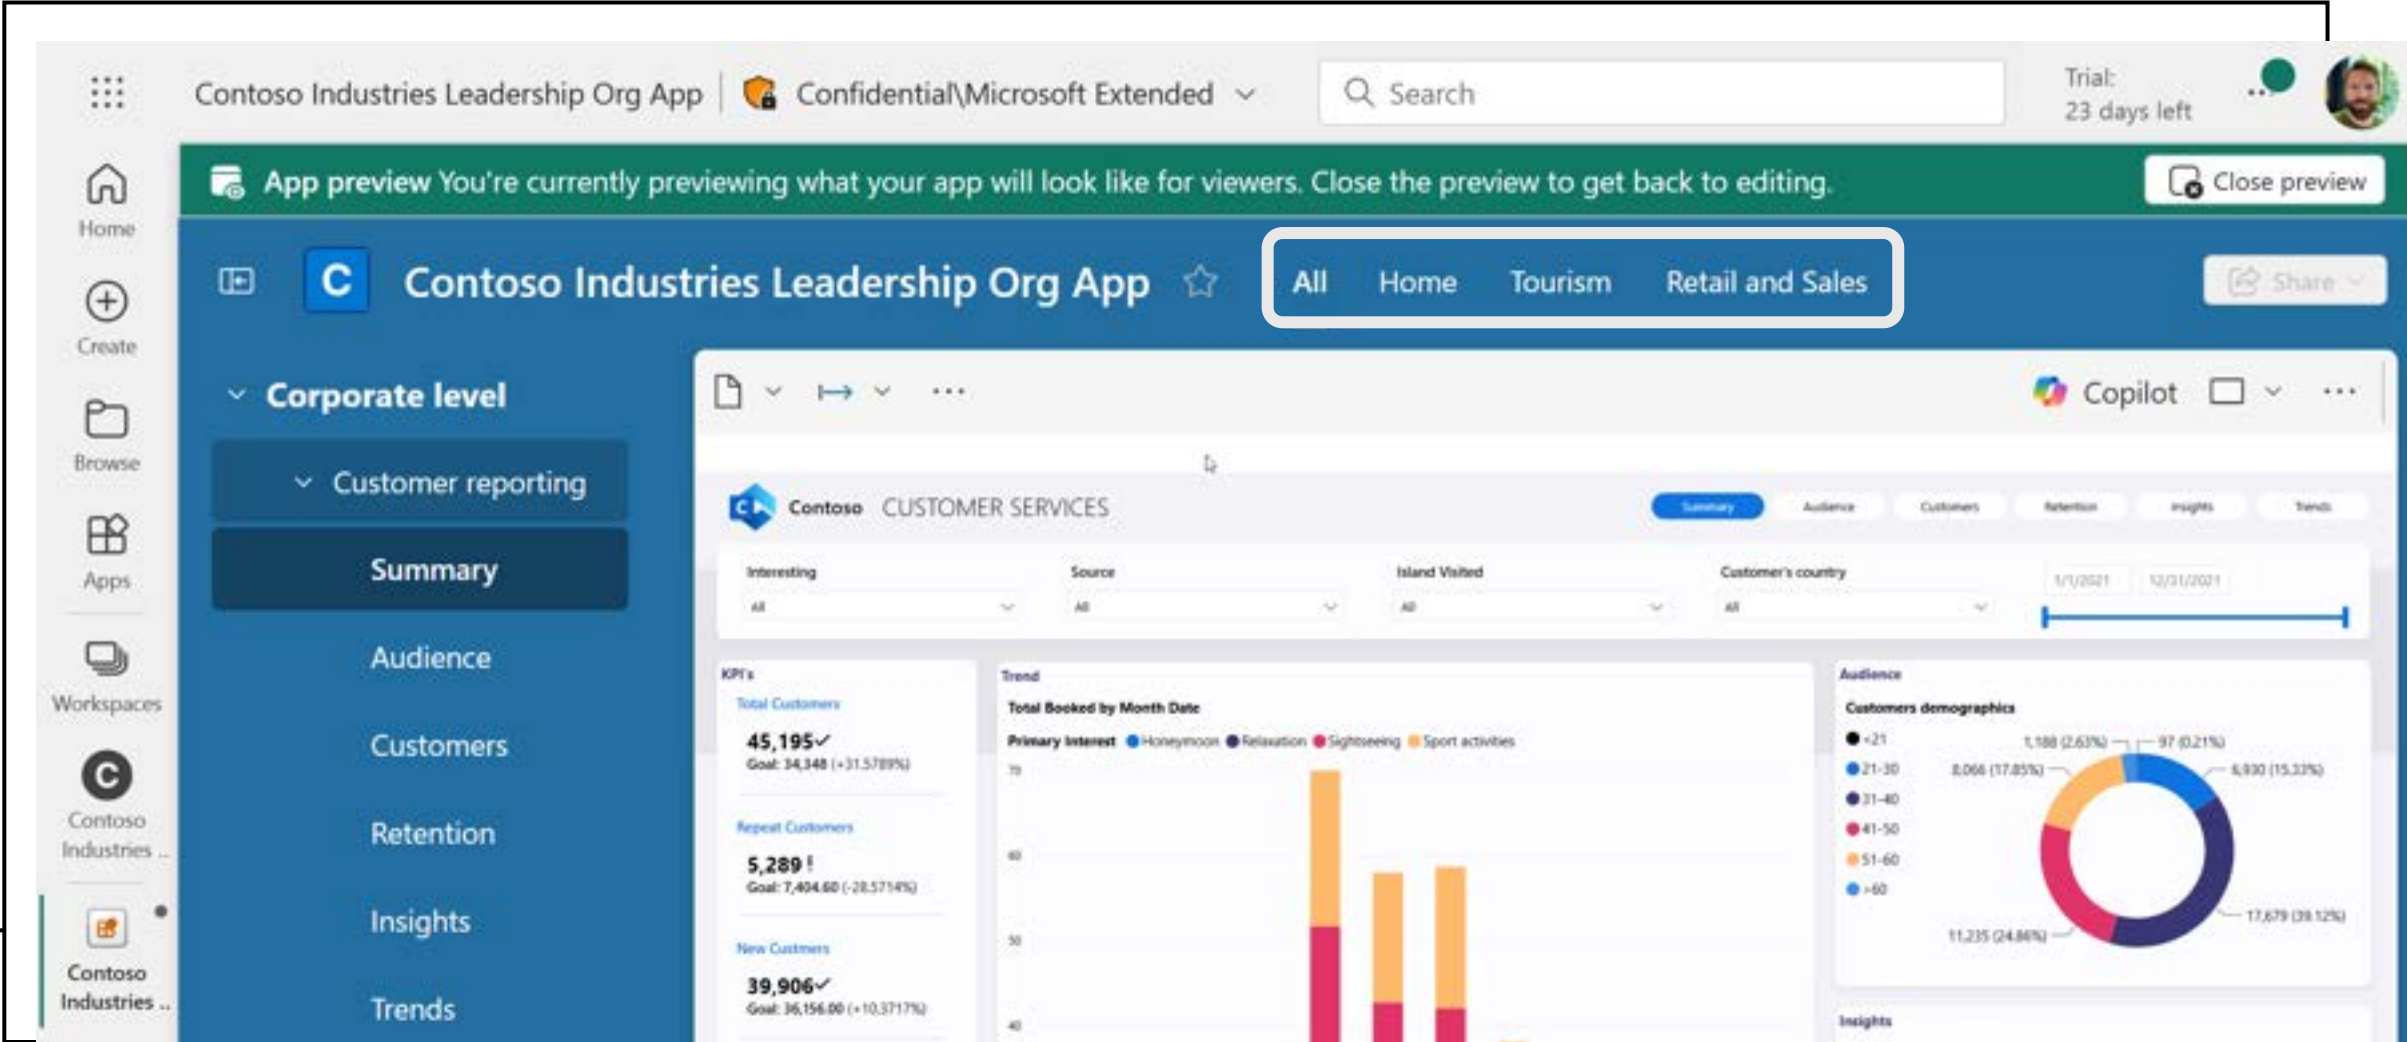

Org apps + audiences

The screenshot displays the user interface of the 'Contoso Industries Leadership Org App'. At the top, the header includes the app name, a security indicator 'Confidential\Microsoft Extended', and a search bar. Below the header is a toolbar with buttons for 'Add content', 'Save', 'Settings', 'Customize', 'Manage audiences' (highlighted with a blue box), 'Preview app', and 'Share'. On the left side, a vertical navigation menu contains icons for Home, Create, Browse, Apps, Workspaces, and the current app. The main content area is divided into two sections. The left section, titled 'App elements', lists 'Overview' and 'Hawaii Tourism Spending Analysis'. The right section features a large blue banner with the text 'Contoso Industries Leadership Org App with Audiences!' and an 'Edit' button. Below the banner is a search bar labeled 'Filter by keyword' and a card for 'Hawaii Tourism Spending Analysis'.

Being built for Fabric...

Being built for Fabric...means being built for developers.

Being built for Fabric also means...staging.

Org apps are supported in deployment pipelines

The screenshot displays the Microsoft Power BI Deployment Pipelines interface. The top navigation bar includes the Microsoft logo, 'Power BI', and 'Deployment pipelines'. A search bar is located on the right. The left sidebar contains navigation icons for Home, Create, Browse, App, Deployment pipelines, Workspaces, and Contoso Industries. The main content area shows the 'Contoso Industries pipeline' with three stages: Development (Contoso Industries (dev)), Test (Contoso Industries (test)), and Production (Contoso Industries (prod)). The Test stage is highlighted with a green border and shows a 'Successful deployment' message with a timestamp of 'Deployed: 03/27/25, 12:08 PM'. The bottom of the interface features a 'Test' tab, a 'Deploy from' dropdown menu set to 'Development', and a 'Deploy' button. Below this, there are options for 'Select related', 'Compare', 'Deployment history', and a search bar for 'Filter by keyword'. A table at the bottom lists 'Selected stage item', 'Type', 'Compared to source', and 'Source stage item'.

Deploying from dev to test...

The screenshot displays the Microsoft Power BI Deployment Pipelines interface. At the top, the header shows "Microsoft | Power BI | Deployment pipelines" with a search bar. The main section is titled "Contoso Industries pipeline" and shows a sequence of three stages: Development (Contoso Industries (dev)), Test (Contoso Industries (test)), and Production (Contoso Industries (prod)). The Test stage is highlighted with a blue box. Below the pipeline, there is a "Test" section with a "Deploy from" dropdown set to "Development" and a "Deploy" button. To the right of the dropdown are links for "Select related", "Compare", "Deployment history", and a "Filter by keyword" search bar. Below this, a table lists the items being deployed from the Development stage to the Test stage.

Deployment begins...

The screenshot displays the Microsoft Power BI Deployment Pipelines interface. At the top, the header shows 'Microsoft | Power BI | Deployment pipelines' with a search bar. The main section is titled 'Contoso Industries pipeline' and features a visual pipeline diagram with three stages: 'Development' (Contoso Industries (dev)), a central stage labeled 'Copying the content to this workspace...' (Contoso Industries (test)) which is highlighted with a blue box, and 'Production' (Contoso Industries (prod)). Below the pipeline, a 'Test' tab is active, showing a 'Deploy from' dropdown set to 'Development' and a green 'Deploying' button. A table below lists the items being deployed, comparing them to the source.

Selected stage item	Type	Compared to source	Source stage item
Draft space	Folder	—	—
Models	Folder	—	—
Accounts listing	Paginated Report	—	—
Bike Rentals in Hawaii	Report	—	—
Bike Rentals in Hawaii	Semantic model	—	—
Call Center	Report	—	—
Contoso Sales	Semantic model	—	—
Cross-Team Efficiency Project App	Org app (Preview)	—	—

Repeat process till final stage

The screenshot displays the Microsoft Power BI Deployment Pipelines interface for the 'Contoso Industries pipeline'. The pipeline consists of three stages: Development, Test, and Production. The Production stage is highlighted with a blue box and a checkmark, indicating it is the final stage. Below the pipeline, a table compares items between the Test and Production stages, showing that all items are 'Same as source'.

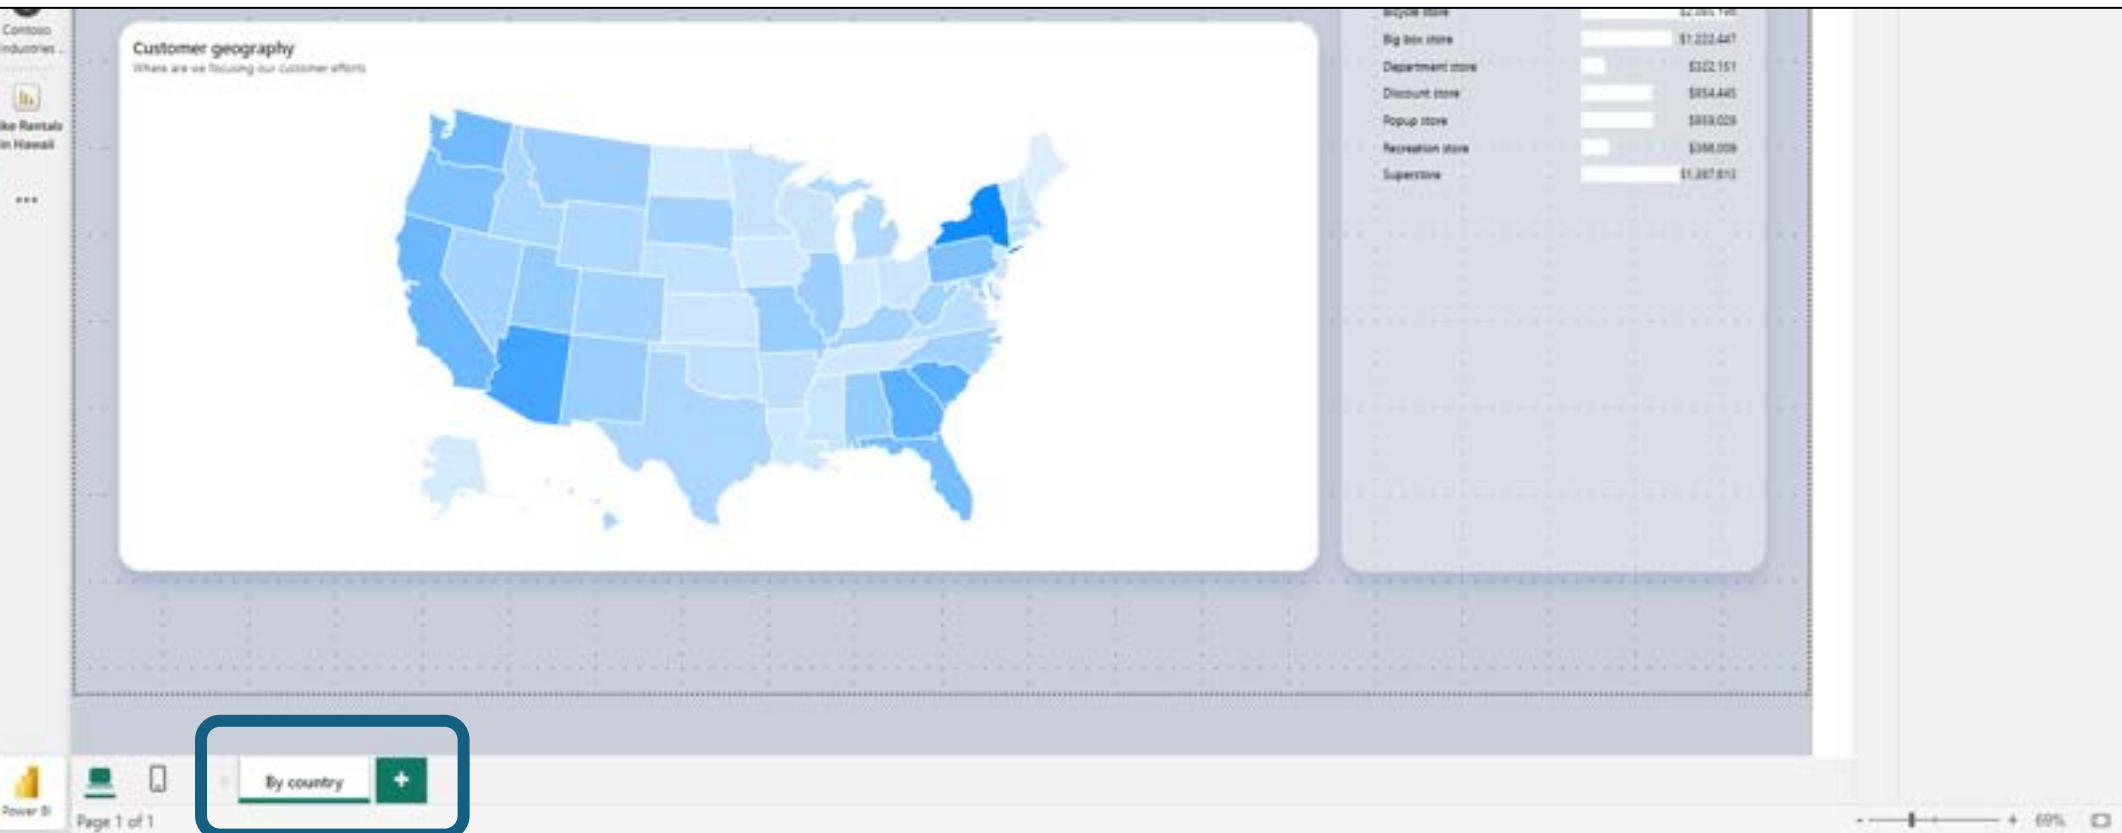

Selected stage item	Type	Compared to source	Source stage item
Draft space	Folder	—	—
Models	Folder	—	—
Accounts listing	Paginated Report	Same as source	Accounts listing
Bike Rentals in Hawaii	Report	Same as source	Bike Rentals in Hawaii
Bike Rentals in Hawaii	Semantic model	Same as source	Bike Rentals in Hawaii
Call Center	Report	Same as source	Call Center
Cities served	Real-Time Dashboard (Preview)	Same as source	Cities served
Cities table	Notebook	Same as source	Cities table
Competitive Marketing Analysis	Report	Same as source	Competitive Marketing Analysis

Great way to version reports in org apps

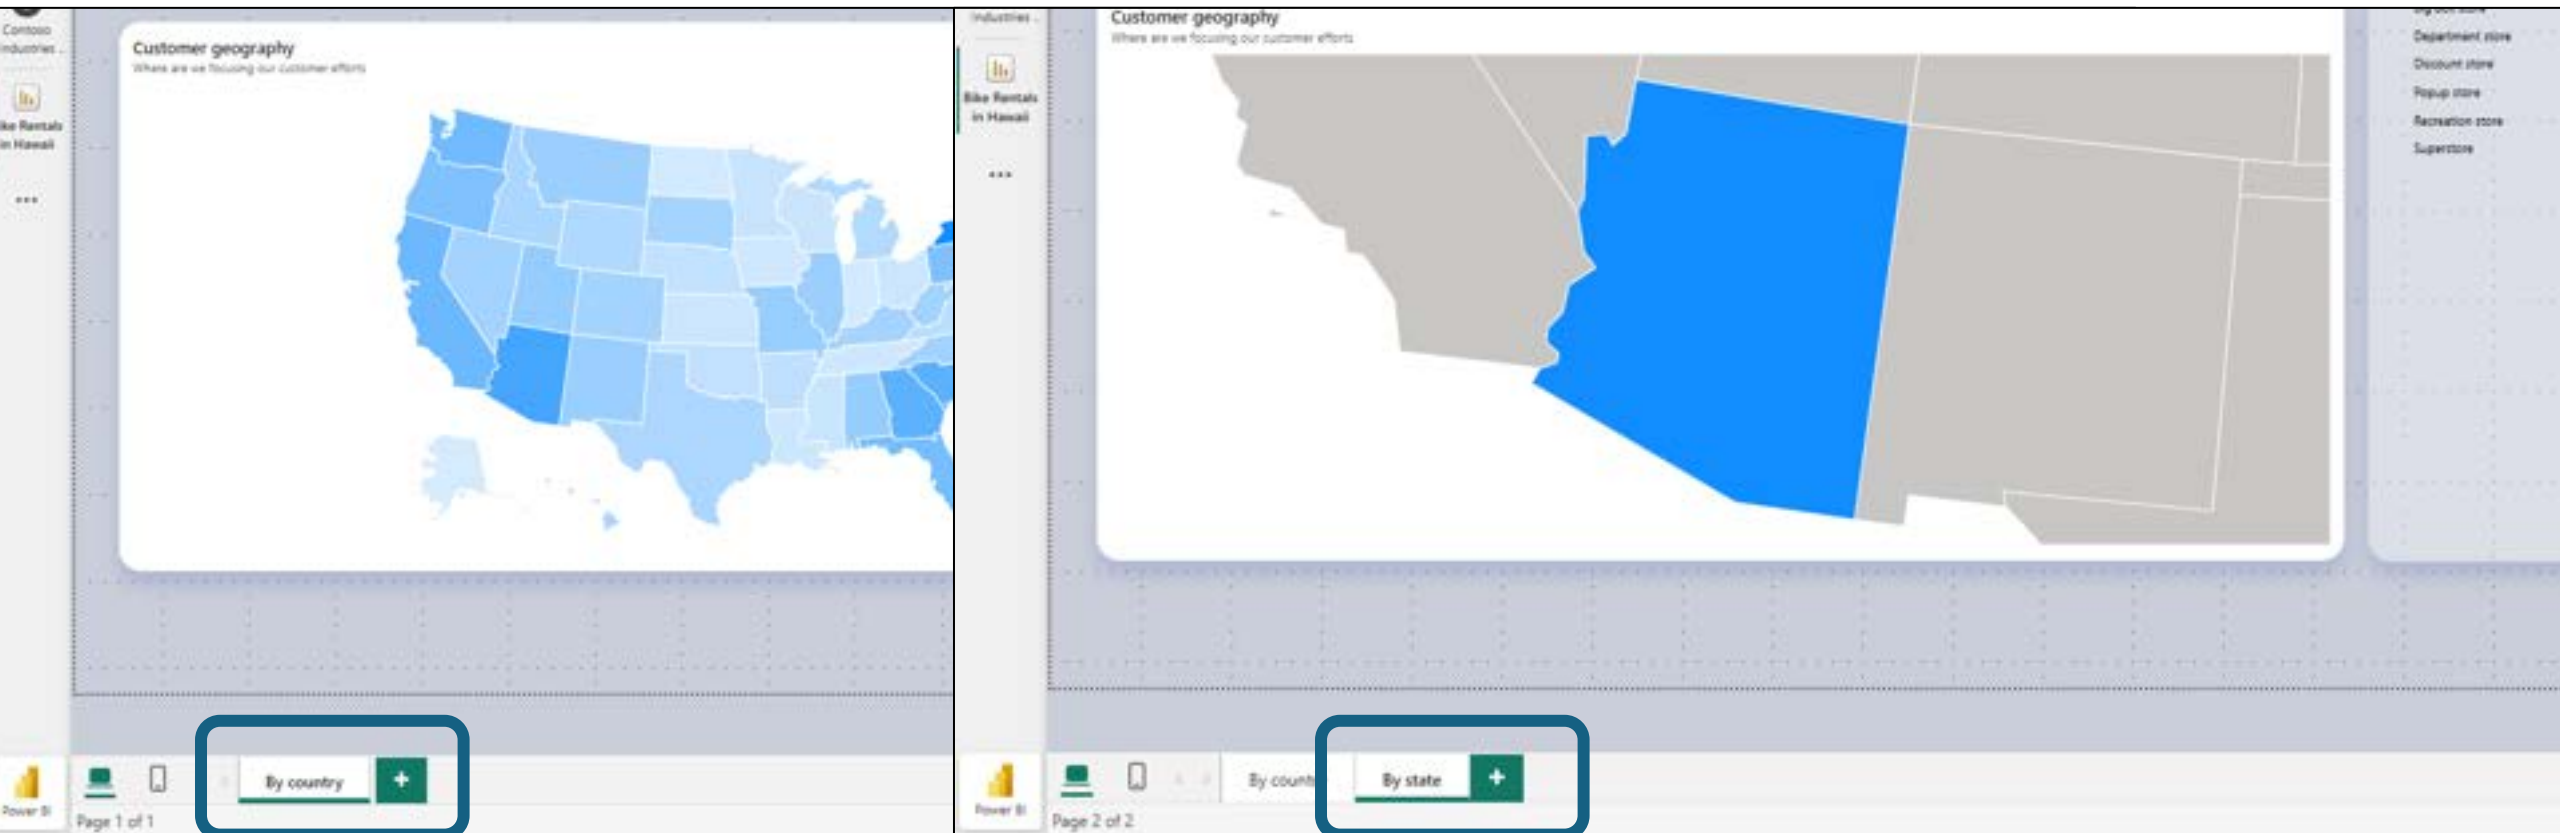

The screenshot displays the Microsoft Fabric deployment pipeline interface. The top section shows a pipeline with two stages: 'Development' (Contoso Industries (dev)) and 'Test' (Contoso Industries (test)). The 'Test' stage shows a 'Successful deployment' message with a timestamp of 'Deployed: 01/27/25, 1:50 PM'. Below the pipeline, a table lists items being compared between the source and the target environment. The 'Bike Rentals' report is highlighted with a blue box.

Selected stage item	Type	Compared to source	Source s
Draft space	Folder	—	—
Models	Folder	—	—
Accounts listing	Paginated Report	Same as source	
☐ Bike Rentals	Report	Same as source	
Bike Rentals	Semantic model	Same as source	

Great way to version reports in org apps

Great way to version reports in org apps

And it's not just content updates with org apps...

And it's not just content updates with org apps...

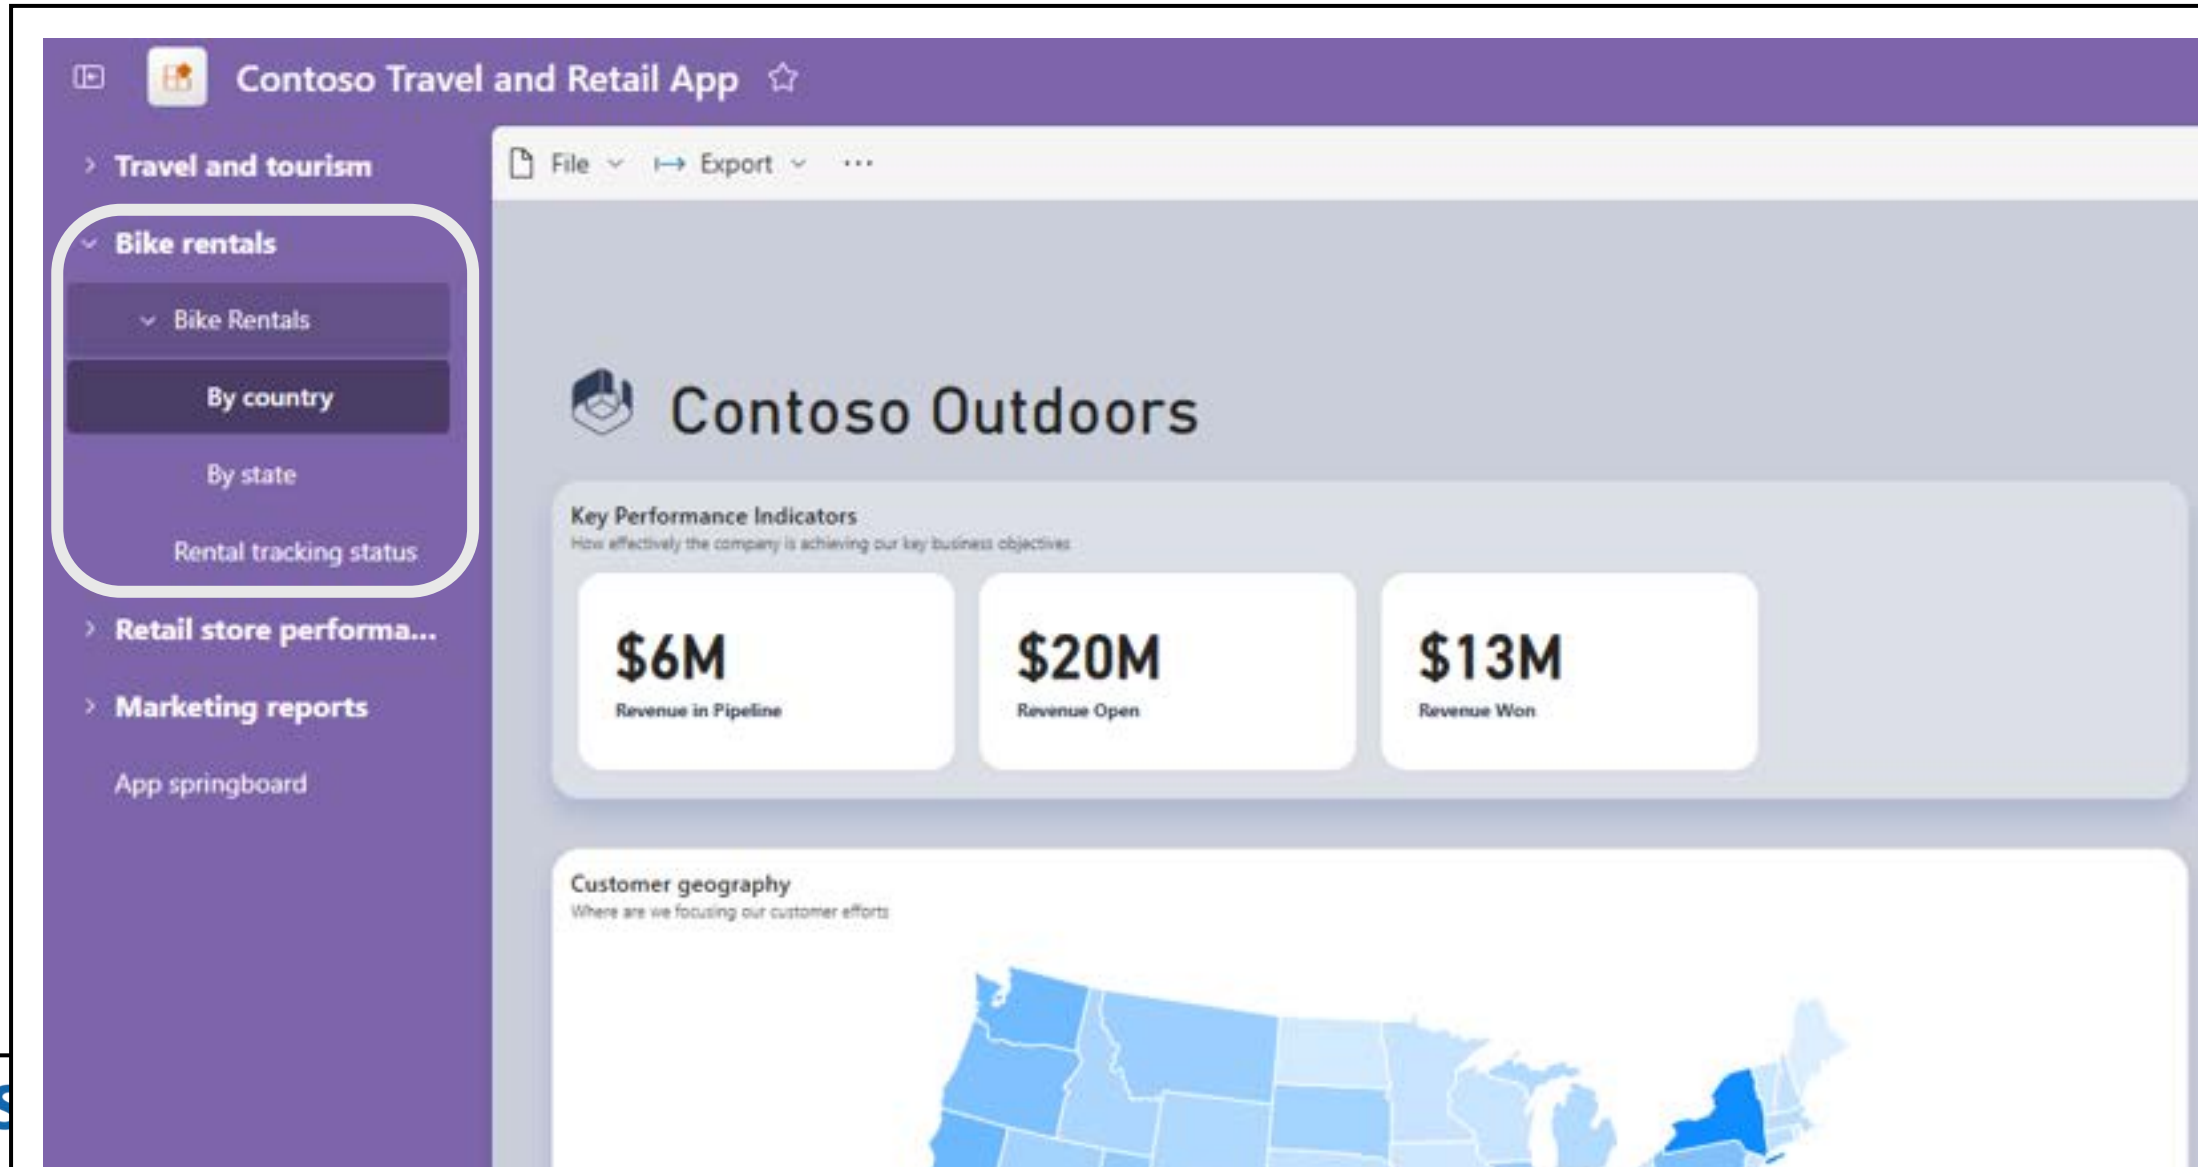

You can version changes to the org app itself...

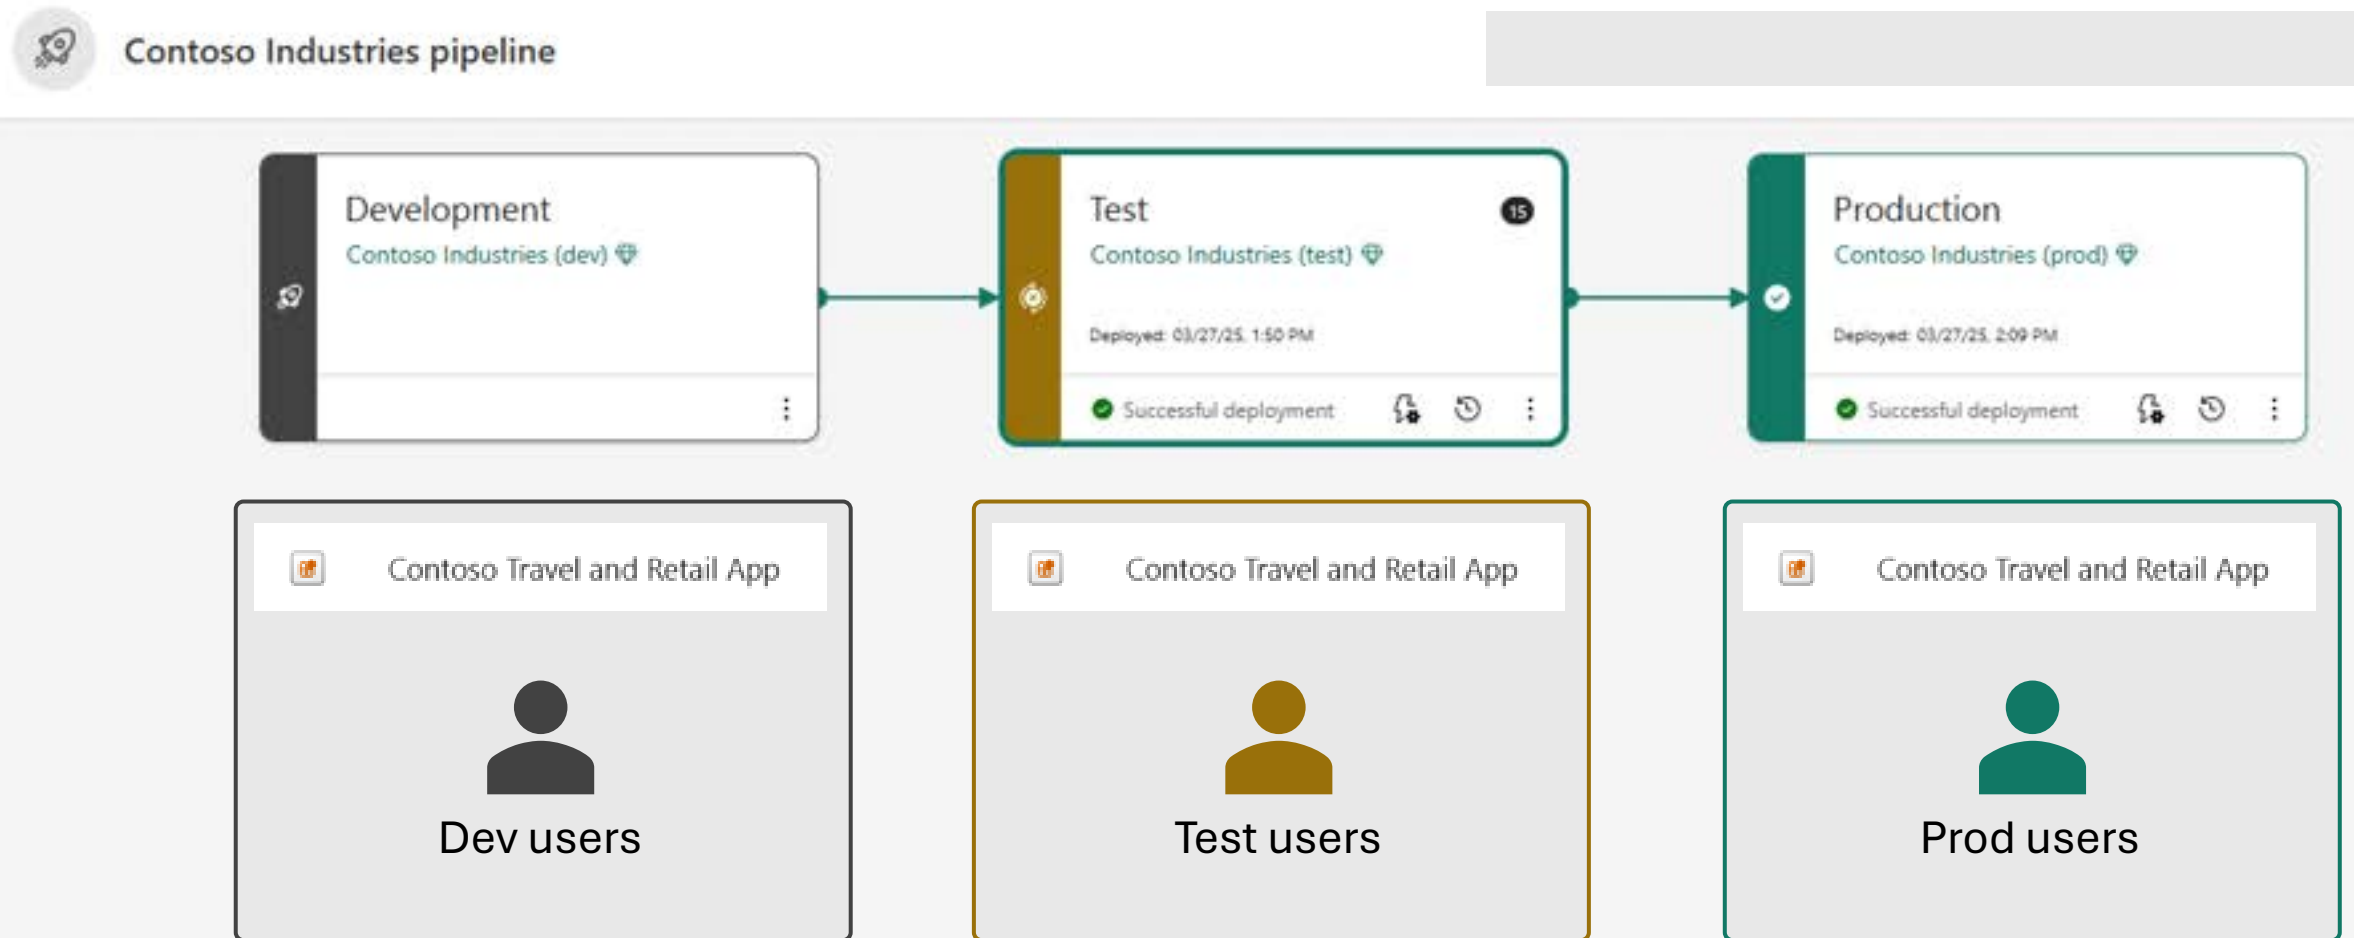

The screenshot displays the Salesforce deployment interface. At the top, a pipeline shows three stages: Development (Contoso Industries (dev)), Test (Contoso Industries (test)), and Production (Contoso Industries (prod)). The Test stage is currently selected and highlighted with a blue border. Below the pipeline, the 'Deploy from' dropdown is set to 'Development', and the 'Deploy' button is highlighted with a blue box. The interface shows the 'Test' stage details, including the deployment time (03/27/25, 1:50 PM) and a 'Successful deployment' status. Below this, the 'Draft space' is shown, containing a table of items to be deployed.

Selected stage item	Type	Compared to source	Source stage item
Contoso Industries Leadership App	Org app (Preview)	Same as source	/Draft space/Contoso Industries Leadership App
Contoso Travel and Retail App	Org app (Preview)	Different from source	/Draft space/Contoso Travel and Retail App
Cross-Team Efficiency Project App	Org app (Preview)	Same as source	/Draft space/Cross-Team Efficiency Project App
Health and Services App	Org app (Preview)	Same as source	/Draft space/Health and Services App

You can version changes to the org app itself...

...while org app user access remains unique per stage.

Create an org app using your workspace app content

Creating an org app will allow you to explore new features. We'll automatically include all your existing app content and user access, so you can test it out seamlessly. **Your existing Power BI app will remain unchanged**, creating an org app will not affect or modify your existing app in any way.

 Copy and grant access to existing workspace app users

 All users who currently have access to the classic app will be automatically granted access to the new org app version.

Try later

Create org app

Functionality and options as varied as our customers

Org Apps: Listen > Enhance > General Availability

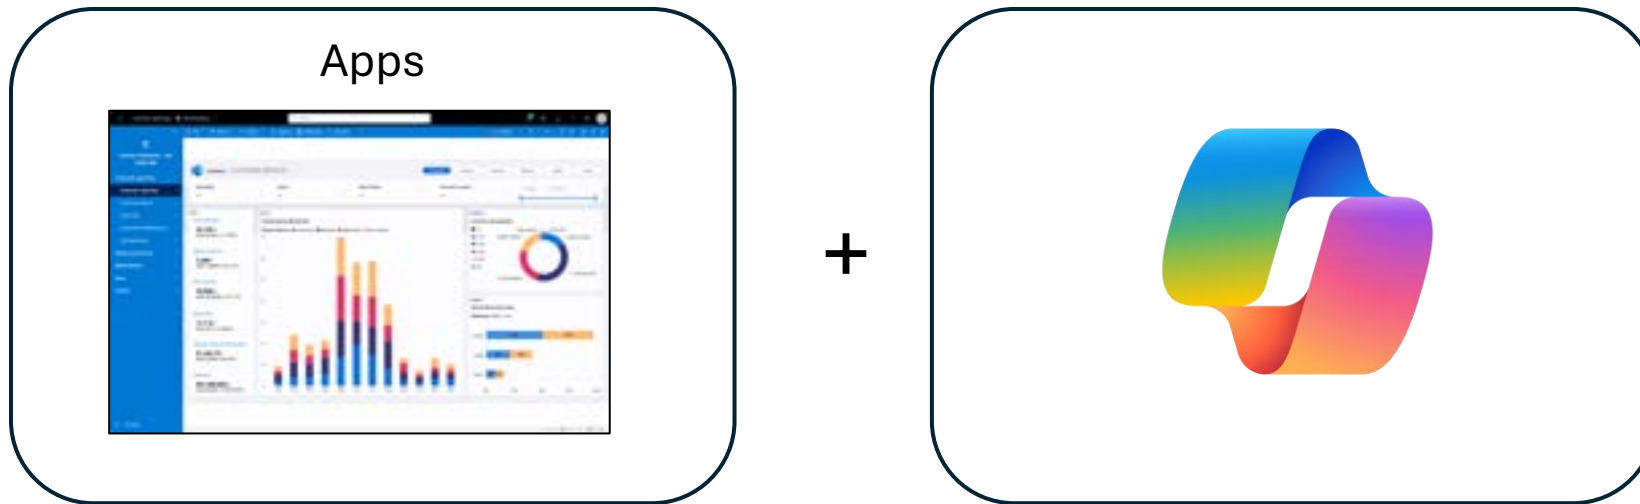

Workspace Apps: Available and Supported

Workspace app > org app migration post-GA

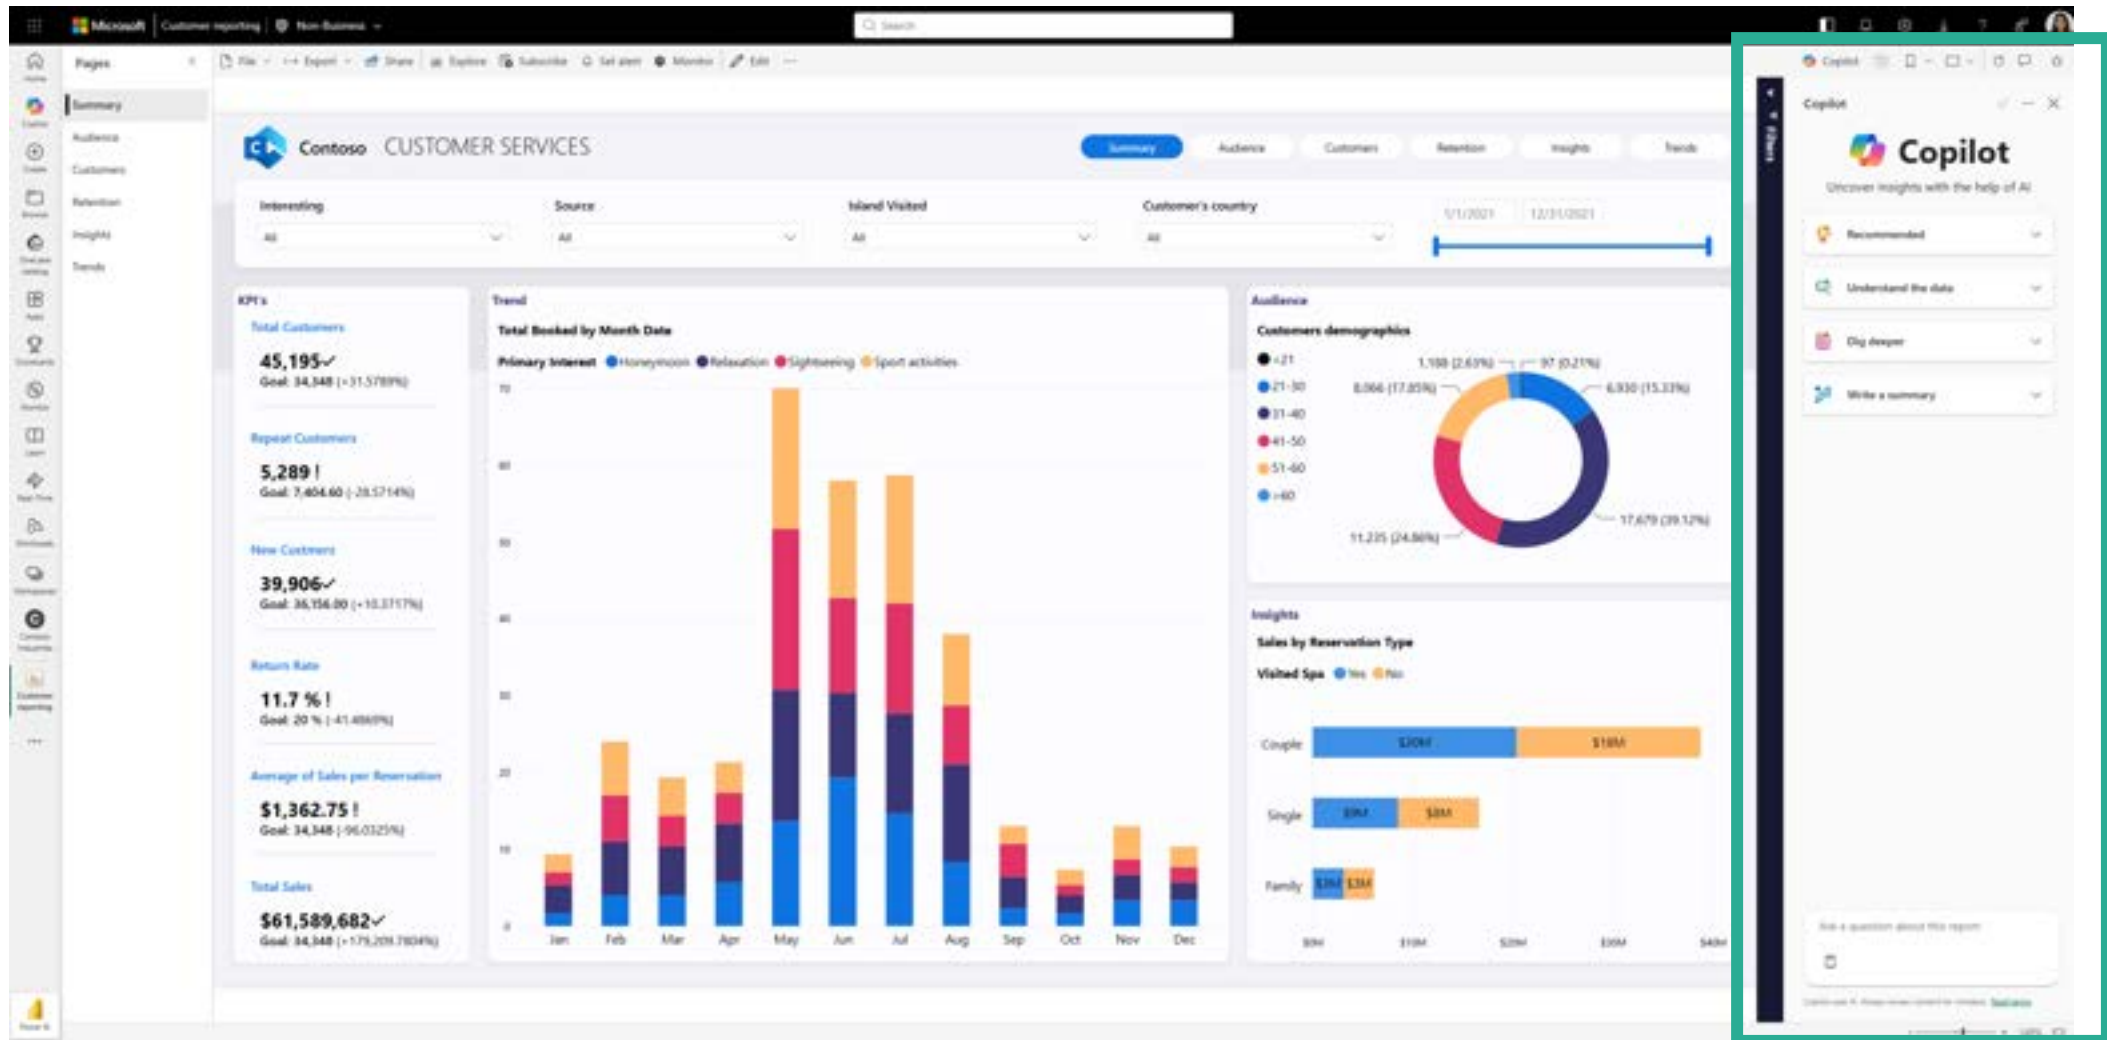

Keep the feedback coming, we'll adjust post-GA plans based on what we hear.

Find reports that include bike rental data

Copilot All-generated content may be incorrect

Here are the reports that include bike rental data:

- [Bike Rentals in US](#): Focuses on store performance and customer engagement across locations, including metrics like revenue won, revenue in pipeline, and revenue open.

You also have a related semantic model that holds the underlying bike rental data:

- [Bike Rentals](#)

If you'd like, I can next help you:

- Get specific metrics from the Bike Rentals report (for example, rentals by day or location), or
- Summarize the Bike Rentals report for a quick overview.
